Sam Brownback, Governor

January 29, 2014

The Honorable Susan Wagle
President, Kansas Senate
State Capitol - Room 333-E
Topeka, KS 66612

RE: Annual Report to the 2014 Legislature

Dear President Wagle:

Greetings! We would like to take a moment and introduce our 2014 Utilities and Common Carriers Annual Report. The report is submitted pursuant to the provisions of K.S.A. 66-117b. We hope that you will find the information to be organized and delivered in a concise manner.

The statute requires the Commission to monitor and report annually to the legislature any changed rate, joint rate, toll, charge or classification or schedule of charges, or any rule or regulation or practices pertaining to service or rates approved by the Commission in the preceding fiscal year for a public utility or common carrier that had \$10 million or more in annual operating revenues in the previous calendar year.

The report covers action taken by the KCC for the fiscal year beginning July 1, 2012, through June 30, 2013. This report includes information on Commission actions regarding utilities with less than \$10 million in annual operating revenues. Within each industry, information is provided separately for both categories including "large" companies with more than \$10 million in revenues and "small" companies with less than \$10 million in revenues.

The report is also available on our website at www.kcc.ks.gov. If you have questions regarding this report, please contact Jesse Borjon, Director of Public Affairs and Consumer Protection, at 785.271.3269 or j.borjon@kcc.ks.gov, or Kim Christiansen, Executive Director, at 785.271-3166 or k.christiansen@kcc.ks.gov.

Sincerely,

Kim Christiansen
Executive Director

Jeff McClanahan, Director
Utilities Division

Mike Hoeme, Director
Transportation Division

UTILITIES AND COMMON CARRIERS
ANNUAL REPORT | 2014

The mission of the Kansas Corporation Commission (KCC) is to protect the public interest through impartial, efficient, and transparent resolution of all jurisdictional issues; and by participating in other forums and tribunals where articulated state policy objectives are at issue. The agency shall: regulate rates, services and safety of public utilities, common carriers, and motor carriers; regulate oil and gas production by protecting correlative rights, environmental resources, and energy storage; and promote energy-related programs.

About the KCC

The Kansas Corporation Commission (KCC) regulates five cornerstone industries in the Kansas economy. The Commission has the responsibility of ensuring that natural gas, electricity, telephone, and transportation vendors provide safe, adequate, and reliable services at reasonable rates. The Commission also has the mandate of assuring that oil and gas producers protect correlative rights and environmental resources. The authority of the Kansas Corporation Commission is derived from KSA 74-601 to 74-631.

The KCC does not regulate most electric cooperatives, water cooperatives, municipalities, wireless telephone, long distance service, cable companies, or the internet.

The Commissioners function like a board of directors, and day-to-day management of the agency is vested in the Executive Director who functions like a Chief Executive Officer. The three-member Commission is appointed by the Governor with the approval of the Senate. Members serve staggered four-year terms. Law provides that no more than two of the three commissioners may belong to the same political party. Commissioners elect one of their colleagues as Chair. The work of the Commission is supported by the Division of Administration, Public Affairs and Consumer Protection, Utilities, Conservation, Transportation, and Energy.

Originally established in 1883 to regulate railroad activity, the KCC was one

of the first state regulatory bodies in the nation. In 1911, the Kansas Legislature created a three member Public Utilities Commission to regulate telegraph and telephone companies, pipeline companies, common carriers, water, electric, gas, and all power companies with the exception of those owned by municipalities.

The present regulatory body was established by the Legislature in 1933. Over the years, its jurisdiction was extended to include motor carriers, gas conservation, and supervision of plugging abandoned wells to protect fresh and useable water from pollution.

Current KCC Leadership

Shari Feist Albrecht **Chair**

Appointed June 25, 2012

Appointed by Governor Sam Brownback

Elected Chair January 9, 2014

Term expires March 15, 2016

Albrecht is actively involved in the National Association of Regulatory Utility Commissioners (NARUC), currently serving on the Committee on Gas and the Pipeline Safety Subcommittee.

Prior to joining the KCC, Albrecht served in various capacities at the Kansas Department of Health and Environment (KDHE) from 1993 to 2012. She most recently served as Associate Chief Counsel, and in that capacity, supervised the Environmental Practice Group.

Albrecht also presided at environmental hearings conducted under the Kansas Administrative Procedure Act. Environmental cases heard included air quality, water quality, solid and hazardous waste, and surface mining.

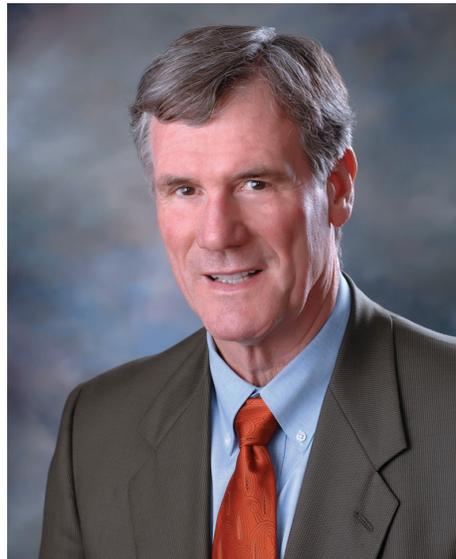

From 2003 to 2011, Albrecht served in a policy research support role for KDHE's Division of Environment developing legislative and regulatory proposals to implement environmental policies related to air quality and radiation control, and for the Kansas Commissioner to the Central Interstate Low-Level Radioactive Waste Commission (CIC). She served as CIC Commissioner for Kansas from 2008 through June 2013.

At the KCC, Albrecht served as Direc-

tor of the Oil and Gas Conservation Division from 1987 to 1991, managing the Wichita headquarters office and four district field offices. In this capacity, she chaired numerous committees, including the Oil and Gas Advisory Committee. Commissioner Albrecht also served as Deputy Director, Oil and Gas Conservation Division; Acting General Counsel, Assistant General Counsel, and staff attorney for the Transportation Division.

Albrecht, born in Lawrence, Kansas, and raised in Hays, Tribune, and Sharon Springs, earned a Bachelor of Arts degree in Spanish Literature from the University of Kansas in 1982. She graduated from Washburn University School of Law in 1984 and is admitted to practice law in Kansas, U.S. District Court for Kansas, and the U.S. Supreme Court.

Albrecht and her husband, Martin, have two adult daughters. They reside in Topeka. In the community, Albrecht is active at Faith Lutheran Church, has served on many boards and task forces, and was a Troop Leader for Kaw Valley Girl Scout Council Troop 173.

Tom Wright
Commissioner

Appointed May 23, 2007 / January 8, 2010
Appointed by Governor Kathleen Sebelius /
Governor Mark Parkinson
Term expires March 15, 2014

Commissioner Tom Wright served as Chair of the Governor’s Gaming Committee in 2004 and of the Consolidation Commission of Topeka-Shawnee County in 2005. He was Chair of the Washburn Board of Regents from 1986 to 1988, beginning as a Board Member in 1982. Throughout his career, he has taught classes at Washburn University Law School and in the NITA program at Loyola Law School in Chicago. He is a member of the National Association of Regulatory Utility Commissioners (NARUC) Committee on International Relations and Committee on Electricity.

He additionally serves as the Kansas delegate to the Eastern Interconnection States Planning Council and the Southwest Power Pool.

Wright was elected President of the Kansas Bar Association (KBA) beginning June of 2008. He was a member of the Board of Governors for the KBA from 1998 to 2005. He served on the KBA Committee on Prevention of Legal Malpractice and chaired the Legislative Committee. He was on the Civil Justice Reform Advisory Group of the Federal Court from 1992 to 1998 and the Federal Bench/Bar Committee from 1990 to 1998. Wright also served on the Kansas-Supreme Court Nominating Committee from 1995 to 2003.

Wright, originally from Harper, Kansas, earned a degree in mathematics from Wichita State University in 1961. He graduated from Washburn University School of Law in 1964 and earned a Bachelor of Arts degree in German from Washburn University in 1979.

Commissioner Wright and his wife, Carole, have two grown children and five grandchildren. They reside in Topeka.

Jay Scott Emler
Commissioner

Appointed January 8, 2014

Appointed by Governor Sam Brownback

Term expires March 15, 2015

Prior to joining the KCC, Emler served in the Kansas Senate where he represented the 35th District in central Kansas for 13 years. While in the Senate, he served as Chairman of both Ways and Means and the Utilities Committee. Emler has previously held a senior position as Vice President and General Counsel for Kansas Cellular. He has had a law practice in McPherson.

Emler is the past national chairman of the Council on State Governments (CSG), a national nonprofit that brings state leaders from across the country together to promote idea-sharing, problem-solving and interstate cooperation on both a regional and national basis. Emler also served on Governor Brownback's transition team.

Emler is a graduate of Bethany College, Lindsborg, where he earned a bachelor's degree and teaching certificate. He earned his law degree from the University of Denver, College of Law. Emler also received a master's degree in Security Studies (Homeland Security and Defense) from the Naval Postgraduate School in Monterey, California.

Emler is a former member of the Lindsborg Community Hospital Board of Directors, a former director on the board of the Falun State Bank, and a 1998 graduate of Leadership Kansas. He has volunteered as an EMT, as administrator

of the Lindsborg Volunteer Ambulance Corps and served as chairman of the Lindsborg Chapter of the McPherson County March of Dimes.

Commissioner Emler and his wife, Lorraine, live in McPherson County where they belong to Bethany Lutheran Church. They have two daughters and operate a small family farm.

Kim Christiansen
Executive Director

Kim Christiansen serves as the Executive Director of the Kansas Corporation Commission (KCC). In this role, she works with the Commission to oversee and manage the agency's operations including its Utilities, Conservation, Transportation, and Energy Divisions. The KCC employs 206 professionals at its headquarters in Topeka, Conservation Division in Wichita, and four Conservation district offices across the state. She became Executive Director in June of 2013.

Prior to the KCC, Christiansen served as the Assistant Secretary and Chief Counsel for the Kansas Department of Agriculture. Previously, she served as General Counsel at the Kansas Water Office, administering the Kansas Natural Resources Dispute Resolution program, served as mediator and arbitrator, and served as the Federal Congressional Liaison for the Kansas Natural Resources Subcabinet.

Christiansen holds a Bachelor of Arts degree in History from Fort Hays State University, a Master of Arts in Education Administration and Supervision from Wichita State University, and a Juris Doctorate from the University of Kansas.

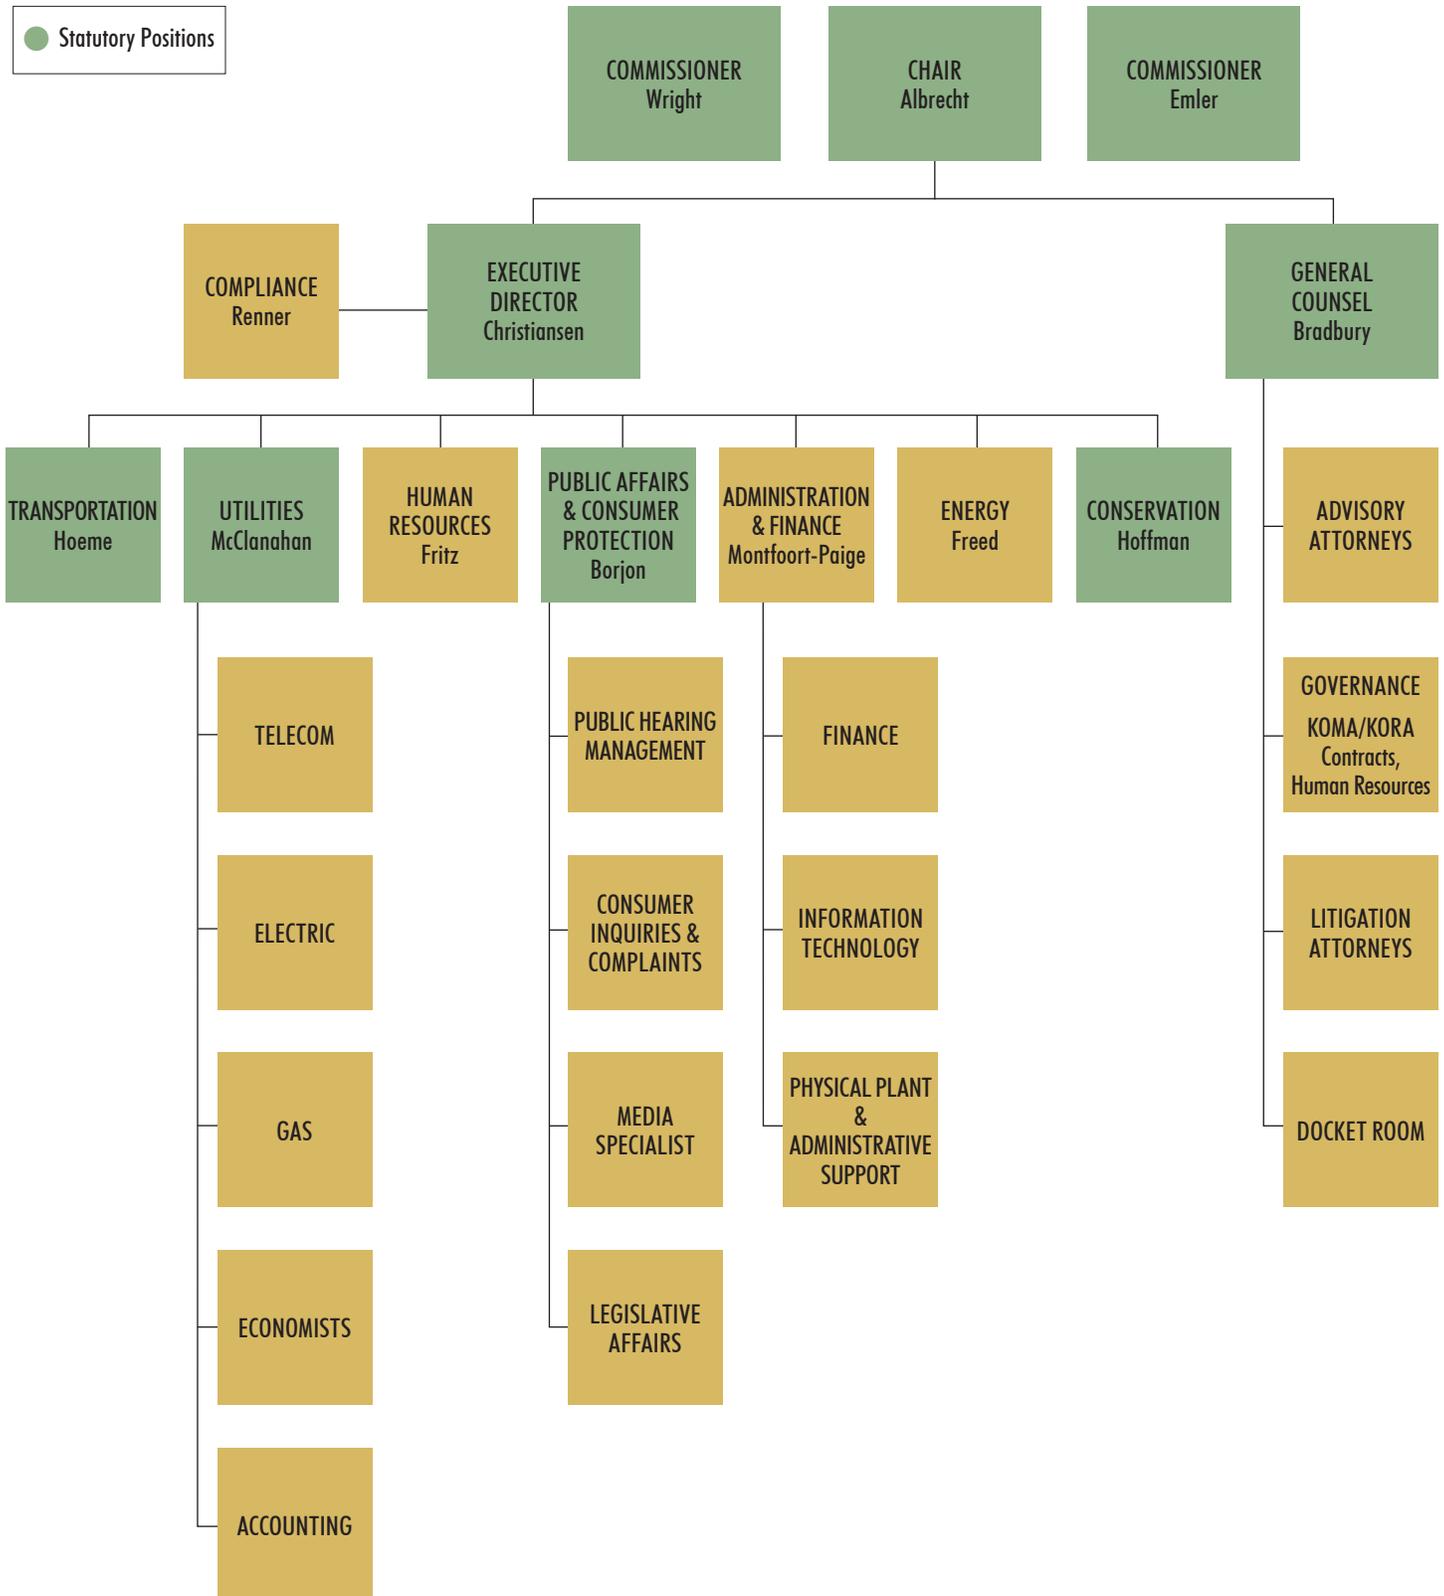

Dana Bradbury
General Counsel

Dana Bradbury serves as the General Counsel of the Kansas Corporation Commission. In this role, she is the legal advisor for the Commission as an agency. She is head of the Legal Division and supervises the Litigation Counsel, Advisory Counsel, and legal staff in the Conservation Division. Bradbury supervises or coordinates the legal representation at the Federal Energy Regulatory Commission (FERC) and the Federal Communications Commission (FCC). She also supervises the Docket Room.

Prior to General Counsel, Bradbury served as an Assistant General Counsel on electric and natural gas cases. She graduated Magna Cum Laude from Washburn University School of Law in 1983.

KCC Functional Structure

Organization and staffing are determined by the Executive Director and managers, driven by workflow and benchmarking.

Utilities Overview

The Utilities Division is responsible for administering the laws and regulations applicable to jurisdictional electric, natural gas, telephone, and water utilities. The Utilities Division staff is comprised of five sections that are responsible for providing recommendations and advice to the Commission to promote and assure sufficient, efficient, and safe utility services at reasonable and non-discriminatory rates to consumers.

The five sections within the Utilities Division are Accounting, Economics and Rates, Energy Operations, Pipeline Safety, and Telecommunications. These sections are responsible for the following:

1. The Accounting section is responsible for investigating, analyzing, and making recommendations to the Commission on accounting and financial issues relating to the electric, natural gas, telecommunication, and water industries.

2. The Economic Policy and Rates section is responsible for investigating and making recommendations on economic issues relating to the natural gas, electric, and telecommunications industries to the Commission as well as the Kansas Legislature and other state agencies. In rate cases, this section is also responsible for evaluating the cost of service and developing a rate design.

3. The Energy Operations section provides technical expertise relating to electric utility operation, reliability, safety, electric transmission siting, and electric and gas consumer service as well as analyzing requested changes to natural gas and electric certificates.

4. The Natural Gas Pipeline Safety section has primary responsibility to ensure safe operation of all gas utilities through enforcement of federal and state regulations.

5. The Telecommunications section is responsible for researching, investigating, analyzing, and making recommendations on courses of action for all telecommunications matters that come before the Commission.

Major Issues for FY 2013

EPA

• In 2012, the Commission initiated an internal EPA Work Group led by the Utilities Division. The primary role of the EPA Work Group is to (1) support the Kansas Department of Health and Environment (KDHE) in its lead role in monitoring and implementing EPA rules, (2) communicate with stakeholders, and (3) evaluate the impact of EPA issues on jurisdictional utilities. The EPA Work Group is primarily made up of a cross-section of Commission Divisions that consists of representatives from the Utilities, Legal, and Conserva-

tion divisions. Staff has also hired legal counsel in Washington D.C. to monitor and inform the EPA Work Group of pending EPA actions regarding new or existing environmental rules. In addition, the EPA Work Group meets regularly with KDHE to determine whether the KCC can provide any meaningful assistance to KDHE when it files comment letters with the EPA. For example, Commission staff provided analysis of the EPA's cost model used when determining the impact of new CO2 emission standards.

• In early 2013 President Obama issued a memorandum directing the EPA to re-propose carbon pollution guidelines for new and existing power plants. In September 2013, EPA announced proposed standards for new sources and has targeted June 2014 to announce proposed standards for existing sources. The EPA is currently requesting input from state and local agencies in the development of the guidelines, and KCC staff is working with KDHE to help develop comments on the proposed standards.

SIGNIFICANT INCREASES IN CAPITAL INVESTMENT

- Electric utilities continue to manage large-scale environmental retrofit projects on coal-fired generation assets. In addition, the Southwest Power Pool continues to approve new transmission facilities to enhance reliability of the transmission system. Both the new environmental retrofits and new transmission assets are extremely capital intensive and will continue to place upward pressure on utility rates.

- Telecommunications companies are continuing to invest in new technologies, primarily to enhance broadband services. The investment in broadband services is generally driven by the FCC's National Broadband Plan, which has a goal of supporting the provision of broadband communications in areas that would be unserved or underserved without such support. However, the continued investment in new technologies should not significantly increase the size of the KUSF. HB 2201, which was passed during the last legislative session, caps the KUSF fund at \$30 million for rate of return regulated carriers and prohibits FUSF losses from being recovered through the KUSF.

MISSISSIPPIAN LIME PLAY – POWER TO DRILL SITE

- The KCC participated in an Inter-Agency Work Group (IAWG) led by the Department of Commerce. The group's purpose was to plan for and aid the stakeholders in the Mississippian Lime Play and address the myriad of infrastructure issues that arise in a major oil boom. In order to address electric power to the drill site issues, the KCC worked with a number of oil companies, the Kansas Independent Oil and Gas Association (KIOGA), and electric utilities to define and address the generation, transmission, and distribution issues that may require new electrical infrastructure. During FY 2013 Sunflower Electric Power Corporation and Mid-Kansas Electric Company developed Extraordinary Line Extension Policies

which were approved by the Commission. Also during FY 2013 – with the exception of SandRidge – the majority of major players in the Mississippian Lime Play announced significant cut-backs or elimination of drilling activity. Therefore, FY 2014 is expected to see a decrease in development and drilling activity in the Mississippian Lime Play.

Electric

OVERVIEW

The KCC regulates nine large (annual operating revenue greater than \$10 million) electric utilities. A list of the large electric utilities and a brief overview of the major activities for FY 2013 are noted below. A summary of each major docket associated with the companies follow this narrative section along with a listing of all other electric dockets. In addition, included in this narrative section is a discussion of the Federal, transmission, and wind issues that Utilities staff spent a significant amount of time on during FY 2013.

LARGE ELECTRIC UTILITY COMPANIES

(Annual operating revenue greater than \$10M)

Empire District Electric Company

Kansas City Power & Light Company

Mid-Kansas Electric Company

Midwest Energy, Inc. (Deregulated on 6/5/2013)

Sunflower Electric Power Corporation (Transmission only)

Westar Energy Inc.

Wheatland Electric

Prairie Wind Transmission, LLC

ITC Great Plains, LLC (Transmission)

Two major electric utility companies filed applications to increase rates during FY 2013, including the state's largest electric utility, Westar Energy. In addition, Mid-Kansas Electric Company filed a rate case to increase the rates for one of its divi-

sions, Southern Pioneer. Both were abbreviated rate cases filed pursuant to K.A.R. 82-1-131(b)(3), which allows a utility to utilize most of the financial information from a previously approved rate application with changes to only those areas of the case previously agreed upon and ordered by the Commission. Westar's rate case was filed in order to include in rates the capital costs incurred through June 30, 2013, related to its share of the LaCygne Environmental Retrofit project. In the case of Mid-Kansas, the case was filed to reflect increases in debt service costs associated with capital improvements incurred pursuant to Southern Pioneer's Construction Work Plan.

In addition to the abbreviated rate case, Mid-Kansas also filed to transfer its certificate to provide retail electric utility service to each of the six Member-Owners of Mid-Kansas. This was a complicated and lengthy proceeding involving multifaceted jurisdictional analyses, several long-standing disputes over competing all-requirements contracts, and uncertainty regarding the applicability of laws governing the voting requirements for deregulated cooperatives that acquired a previously-regulated customer base that now forms the majority of the cooperative. The case culminated in a unanimous settlement agreement amongst all parties and was ultimately approved by the Commission. Mid-Kansas also filed a request for a new formula rate plan to review the prospective rates of one of its Divisions, Southern Pioneer, and potentially change rates on an annual basis. This plan contemplates reviewing Southern Pioneer's rates annually for five years using a Debt Service Coverage ratio calculation. The plan includes comprehensive review protocols and an accelerated review timeframe when compared to a traditional rate case. The plan should avoid some of the costs and time investment of a traditional ratemaking model.

Lastly, Sunflower Electric Power Corporation filed an application for a Transmission Formula Rate. This application sought the Commission's approval for a formula to

determine annually the cost of Mid-Kansas' transmission facilities to be recovered through the Open Access Transmission Tariff at the Southwest Power Pool (SPP). This annual determination could be determined without the need for a rate case and was necessary due to the increased demands being placed on Sunflower to expand its transmission facilities through the reliability planning process in place at SPP.

FEDERAL ISSUES

The KCC intervened in several matters before the Federal Energy Regulatory Commission (FERC) during FY 2013. Because of the proliferation of regional transmission organizations like SPP and the associated increase in transmission infrastructure, the KCC's involvement in FERC electric matters has increased significantly over previous years.

In dockets ER12-1813, ER12-2554, and ER13-301, the KCC protested or intervened in transmission formula rate filings at FERC by Empire District Electric Co., Transource Missouri (a KCPL and AEP joint venture), and Mid Kansas Electric Co. respectively. The KCC participated in these dockets to ensure that just and reasonable rates would result from the filings and because all Kansans will pay a portion of the rates related to any high voltage projects constructed by these entities.

The KCC also intervened in docket ER09-548, wherein ITC Kansas requests to recover approximately \$18 million related to two high-voltage transmission projects and the associated startup costs related to these initial business ventures in Kansas.

SOUTHWEST POWER POOL

The Southwest Power Pool (SPP) is the Regional Transmission Organization (RTO) and Regional Entity (RE) that many Kansas utilities belong to and answer to respectively. Approximately half of the 64 members are comprised of investor-owned utilities, municipal systems, generation and transmission cooperatives, and state authorities who

serve retail loads in parts of nine states (Arkansas, Kansas, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, and Texas). The balance of the Membership is comprised of independent power producers, power marketers, and independent transmission companies. Several Kansas transmission-owning (TOs) utilities are members of the SPP. All Kansas transmission utilities are members of the North American Electric Reliability Corporation (NERC) and are required to follow NERC rules for reliability. SPP has over 550 employees and over 50 standing Working Groups, Committees, or Task Forces, most of which meet at least monthly. The KCC has one Commissioner and two employees (part-time) who typically attend, or monitor by phone, five to ten selected meetings on a monthly basis.

KCC staff interaction with the SPP is often as one of a number of stakeholders – along with utilities, other government agencies, marketers, etc. The SPP is regulated by FERC and NERC and the nature of the SPP is such that many of its activities are beyond the KCC's jurisdiction. However, this does not mean that the KCC and the state do not have a vested interest in affecting the outcomes of those activities on behalf of electric ratepayers and regulated utilities. SPP is stakeholder driven, meaning that the organizational structure includes a number of stakeholder groups. These groups are made up of personnel from SPP member organizations and even some non-member organizations. In addition, the SPP organization includes a Regional State Committee (RSC). This is a policy-level group comprised of state regulators. Under SPP bylaws, one commissioner from each state is a member of the RSC. The RSC fulfills a largely advisory role in SPP and does not "approve" projects. While the RSC establishes the cost allocation methodology for committing retail ratepayer funds, the RSC has no "line" responsibility in approving the number or costs of specific projects approved for construction. Thus, the KCC has no direct oversight over the

amount of spending for Kansas-specific or regional transmission projects, which makes it imperative that the Commission be represented in a liaison capacity at multiple SPP stakeholder committees and task forces.

TRANSMISSION PLANNING AND CONSTRUCTION

In September 2006, the Commission granted the petitions of Kansas transmission owning utilities for permission to transfer operational control of their transmission facilities to the SPP and the application of SPP for certification as a public utility. Since SPP became an RTO and achieved public utility status in Kansas, the SPP planning process has analyzed project recommendations from members and coordinated development of those projects with other new system upgrades identified by SPP staff. Since its inception as an RTO, the SPP has added \$2.9 billion (engineering and construction, or E&C in cost at the time of respective approvals) in new transmission projects that are now in service. According to the SPP Third Quarterly Project Tracking Report (July 2013), an additional 543 projects with an estimated cost of \$6.6 billion have been approved by the SPP Board of Directors for construction. The approved projects in the report are not yet in service and generally not in rates unless Construction Work In Progress (CWIP) is authorized. Depending on the operating voltages of a project, the costs are regionally or zonally recovered from ratepayers inside the SPP Region.

The total annual transmission revenue requirement (ATRR) for transmission owning SPP members is presently \$1.1 billion (SPP Open Access Transmission Tariff "OATT," Attachment H and Revenue Requirements and Rates (RRR) file, October 1, 2013). This represents annual capital cost recovery, operation and maintenance (O&M), and other transmission related expenses for projects that are in-service or construction cost incurred at the date of a FERC

filing. These revenue requirements are recovered through FERC-approved transmission formula rates (TFR), or in some cases state regulated TFRs.

The Commission approved a static transmission rate for the Kansas Power Pool at the end of June, followed by a fourth quarter approval of a TFR for Mid-Kansas Electric Company.

In the summer of 2010, the Commission approved a Stipulation & Agreement between ITC and Prairie Wind regarding the V-plan, a double circuit 345 kV transmission line project in Southwest Kansas. In the summer of 2011, the Commission approved line siting applications for ITC and Prairie Wind. The Commission continues to monitor the progress and financial status of these projects.

Clean Line Energy Partners LLC received Commission approval in December 2011 to conduct the business of a public utility in Kansas and continues to make progress on its Grain Belt Express Clean Line Project (Clean Line). The new line is a ±600 kilovolt (kV), high voltage direct current (HVDC) transmission line and associated facilities capable of delivering 4,000 megawatts (MW) of power from Kansas to load centers farther east. This project will originate in western Kansas near Sunflower's Spearville substation, traverse east across the state (approximately 370 miles) into Missouri where it will interconnect with the AC grid at the St. Francois substation in southeastern Missouri, which is part of the MISO market. From there the line will continue into Indiana where it will interconnect with the PJM market at the Sullivan substation. The Project has been estimated to cost \$2.2 billion with an in-service date of 2018. Clean Line filed a line siting application on July 15, 2013. This project will be funded through the sales of transmission capacity to wholesale customers (referred to as merchant transmission) and therefore will not be funded by Kansas retail ratepayers. No

other lines in SPP are funded in this manner. On November 7, the Commission granted a siting permit to Grain Belt Express to construct the Kansas portion of the transmission line. The Commission stipulated that Grain Belt Express must obtain transmission line siting approval from Missouri, Illinois, and Indiana state utility commissions prior to beginning construction of the Kansas portion of the line. Grain Belt Express is allowed five years from the date of the Commission Order to begin construction, or they will be required to reapply.

ITC recently completed and energized the KETA project. ITC has teamed with Mid-Kansas Electric Company and will split with Westar the development of a 345 kV line from Westar's Summit substation near Salina, Kansas, to ITC's Elm Creek substation near the Cloud County wind farm. The Commission approved line siting applications for this 52 mile project on August 27 and August 29, 2013.

Commission staff continues to monitor the effects of FERC Order 1000, which was issued in July 2011. This landmark Order affects the transmission planning process as it requires RTO's to: 1) coordinate and share information in a transparent manner with neighboring RTO's; 2) establish cooperative procedures by which interregional projects might be addressed; and 3) develop a cost allocation methodology for those interregional projects.

WIND GENERATION AND THE RENEWABLE PORTFOLIO/ENERGY STANDARD (RPS/RES)

In May 2009, the Kansas Legislature passed the Renewable Energy Standards Act (RES) [K.S.A. 66-1256 through 66-1262]. The RES requires all non-municipal utilities in Kansas to satisfy a portion of their generation needs through renewable generation sources. Unlike most other states whose renewable portfolio standard requirements are set in terms of energy, the RES requires affected utilities to have renewable

energy capacity that is equal to 10% of the utility's average prior three year annual peak retail sales for the years 2011 through 2015. The RES requirements increase to 15% capacity for the years 2016 through 2019, and 20% capacity for all years after 2020. The renewable capacity can either be owned by the utility or obtained through a purchase power agreement. Nearly all the required renewable capacity is expected to be wind generation.

K.S.A. 66-1258 also stipulated that the KCC would establish rules and regulations governing specifics of the RES not covered within the statutes. In October 2010, the KCC finalized K.A.R. 82-16-1 through 82-16-6, establishing these rules and regulations. Under KAR 82-16-2(b) (8), each utility is required to submit a report to the Commission detailing compliance with the portfolio standards established in KSA 66-1258 and containing, among other things, "the calculated percentage increase in the utility's revenue requirements and retail utility rates that would be caused by compliance with the acts' portfolio requirement for the year, as determined pursuant to K.A.R. 82-16-4."

Senate Substitute for HB 2526, which amended K.S.A. 66-1260 was passed in the 2012 legislative session. Under HB 2526's new requirements, "The Commission shall annually determine the annual statewide retail rate impact resulting from affected utilities meeting the renewable portfolio requirement." The Commission will establish how the calculation will be done and will report "to the governor, the senate committee on utilities, and the house committee on energy and utilities" every March 1st. The rules and regulations for the RES Act explicitly describe how the retail revenue requirement impact of the RES is to be calculated. In order to calculate the retail rate impact, the only additional information needed is the volumetric sales data. Much of this data is considered confidential, but the commission can aggregate the filings and provide the

rate impact on a statewide basis for the March 1st report.

For 2013 and projected 2014, KCP&L reported less than a 1% rate increase due to Purchase Power Agreements (PPAs) for wind generation at Spearville III, and hydro generation at Central Nebraska Public Irrigation District (CNPID), fees for the North American Renewable Registry (NARR), and customers subscribing to KCP&L's net metering tariff. Westar estimated a rate impact of 1.7% for purchase power agreements (PPAs) for wind generation. Midwest estimated a rate impact of 1.61% due to PPAs for wind generation. KCKBPU estimated a rate impact of less than 1% rate increase. Because KEPCo, Sunflower, and Empire did not add any renewable sources, this particular reporting requirement was moot for those companies this year. These increases in rates are minimal and reflect the low cost advantage of Kansas electric generation.

The comparison of new wind generation to long-existing fossil fuel and nuclear generation, which has been significantly depreciated, places wind generation in the worst possible light. Two additional factors in evaluating Kansas wind generation should be considered: (1) new wind generation compares favorably with new fossil fuel and nuclear generation, and (2) existing coal generation is experiencing increasing cost pressures from environmental regulations, which could tip the balance in favor of wind generation in the near future.

Natural Gas

OVERVIEW

The KCC regulates five large (annual operating revenue greater than \$10 million) electric utilities. A list of the large electric utilities and a brief overview of the major activities for FY 2013 are noted below. A summary of each major docket associated with the companies follow this narrative section along with a listing of all other natural gas dockets. In addi-

tion, included in this narrative section is a discussion of the Federal issues that the Utilities Division spent a significant amount of time on during FY 2013.

LARGE GAS UTILITY COMPANIES

Anadarko Natural Gas Company

ATMOS Energy Corporation

Black Hills/Kansas Gas Utility Co.

Kansas Gas Service, a Division of ONEOK, Inc.

Midwest Energy, Inc.

During FY 2013, there were no major gas rate case proceedings filed at the Commission. There was, however, one fairly complicated and controversial acquisition case. In Docket No. 13-BH-CG-509-ACQ, Black Hills requested Commission approval to purchase Anadarko's certificated gas utility assets in Kansas. The transaction involved the Hugoton Residue Delivery System, a 50-mile pipeline in Southwest Kansas, for \$3.75 Million, which is below the book value. The customers on the pipeline will face a rate increase as a result of the transaction compared to the month-to-month contracts with Anadarko—some dating back over 10 years. This transaction was contested by Southwest Kansas Irrigators, Inc., a major customer on the line. The Commission issued an order approving the transaction on October 10, 2013.

FEDERAL ISSUES

The Commission monitors the rate activities of several interstate pipelines that serve Kansas local distribution companies, towns, and other large volume gas users. Chief among these is Southern Star Central, which, in any given year, transports 50%-70% of all natural gas consumed in Kansas.

In May of 2013, Southern Star filed a major rate case at FERC requesting a rate increase of approximately \$85 million based upon a base period ending February 28, 2013, and adjusted for known and measurable changes through November 30, 2013. At the time of this writing,

the case is in discovery with intervener testimony due in February of 2014. The Kansas share of any rate increase granted to Southern Star is approximately 45% or \$38 million.

During FY 2013 the KCC intervened in several other FERC dockets filed by Southern Star. In gas storage matters, the KCC intervened in docket CP13-179, wherein Southern Star requested to abandon compressor units at its Tonganoxie storage facility, and docket CP13-76, wherein Southern Star intends to install compression facilities to recover migrating gas at the Alden storage facility. The KCC participated in these dockets to ensure that facilities taken out of service are not needed or required to be used in a peak day delivery situation and, in the case of the Alden compressor installation, to ensure that newly installed facilities are needed and required to be used and are not subject to unnecessary costs.

The KCC continues to monitor the activities of Northern Natural Gas in docket CP09-465. In this case Northern Natural has requested an enlargement of its certificated storage boundaries at its Cunningham storage field in an attempt to contain migrating storage gas. Northern is required to make quarterly compliance filings regarding its efforts, and the KCC receives and reviews these filings.

The KCC also intervened in the annual Fuel and Lost and Unaccounted For recovery filings at FERC by Southern Star Central and Kansas Pipeline Company in dockets RP13-620 and RP13-634.

Natural Gas Pipeline Safety

OVERVIEW

With over 20,000 miles of natural gas piping and almost one million customers, the Commission's safety oversight of this utility sector is an important aspect of energy supply to Kansas. Pipeline safety personnel conduct on-site inspections of intrastate natural gas facilities to assure the safe construction, operation, and supply of natural gas.

PIPELINE SAFETY

Pipeline safety personnel continue to conduct on-site inspections of intrastate natural gas facilities. The inspections monitor the gas systems for any areas of non-compliance with pipeline safety regulations. A typical audit will stress compliance with the operator's management of the integrity of the pipeline delivery system, including such topics as review of emergency response plans, odorization requirements, cathodic protection, leak surveys, and operator qualification requirements. In addition, engineers and pipeline safety inspectors investigate any incident suspected of being caused by natural gas and report these to the Commission. Any staff recommendations regarding prevention of potential incidents are included in the report and considered by the Commission. Statistics that provide a snapshot of the pipeline safety personnel's inspection activity as well as an overview of the regulated gas infrastructure in Kansas can be found in the pipeline safety section of this report.

Pipeline safety personnel also investigate violations of the Underground Utilities Damage Prevention Act (KUUDPA). Investigators work with excavators and utility operators to ensure compliance with provisions of the act, such as requesting locates prior to digging and locating facilities within 48 hours of being notified of pending excavation work. To enhance our KUUDPA enforcement efforts, the KCC receives two federal grants that provide funding for two inspector positions for the calendar year. From July 1, 2012, to June 30, 2013, the Commission acted upon 16 filings in which fines were levied to excavators for failure to notify utilities prior to excavating over buried facilities. For the 16 cases, a total of \$9,000 in fines was levied.

Kansas experienced four natural gas incidents in FY 2013. There were no fatalities or injuries resulting from these incidents; however, there was significant property damage. Three of the four incidents were the result of excavator

damage to pipelines. The specifics of the two incidents considered to be significant are included in the KCC pipeline safety dockets listed below.

In 2012, the Kansas Supreme Court ruled on the case of Kansas One-Call System, Inc. v. State of Kansas, and handed down a decision which upheld the constitutionality of certain provisions of the Kansas Underground Utility Damage Prevention Act (KUUDPA). Although the Court clearly upheld the constitutionality of KUUDPA, its analysis included with the decision noted its belief that the Notification Center, as defined in KUUDPA, is an entity separate and apart from Kansas One Call, the current operator of the center. In light of the Court's decision, a general investigation was opened into the operation of the Notification Center to allow the Commission to provide guidance in this matter to all interested parties. At this time, the investigation is ongoing. The specifics for this Docket are included in the KCC pipeline safety dockets listed below.

Aging infrastructure remains a top concern with Kansas natural gas operators. In 2006, the state legislature passed the Gas Safety Reliability Surcharge (GSRS) which allows for alternative recovery of investments for pipe replacement investments. This program has been very successful in accelerating the replacement of aging pipelines. The replacement of distribution piping continues at a rate of approximately 185 miles of steel and 9 miles of cast iron in CY 2012.

Liquid Pipeline Common Carriers

OVERVIEW

Although there are relatively few intrastate pipeline common carriers in Kansas, the Commission is responsible for the economic regulation of this sector. The majority of staff's work in this area is the review of tariff and rate filings in an effort to ensure efficiency and balanced benefit to Kansas common carriers and shippers. The large intrastate

liquid pipeline companies regulated by the KCC are noted below. A summary of each major docket associated with these companies follows this narrative section along with a listing of all other liquid pipeline dockets.

LARGE LIQUID PIPELINE UTILITIES

Jayhawk Pipeline

NuStar Pipeline Operating Partnership, LP

Magellan Pipeline Company, LP

Mid-America Pipeline Company, a subsidiary of Enterprise Products Partners, LP

ONEOK NGL

ONEOK North Systems

Plains Pipeline, LP

A small number of intrastate pipeline common carriers exist within the state subject to the KCC's regulation. KCC staff is responsible for the economic regulation, including but not limited to: processing tariff and rate filings, analyzing tariffs for compliance; monitoring complaints; processing and monitoring certificate filings due to sales, purchases, mergers and acquisitions, divestitures, service cessations and abandonment; and monitoring operations for unforeseeable events and capacity constraints. Additionally, staff tracks all intrastate revenue reported from each pipeline company. Staff processed 11 intrastate pipeline common carrier dockets during FY 2013.

FEDERAL (FERC) ISSUES

IS11-604

The KCC intervened in this docket in which Mid-America Pipeline purchased facilities in Kansas and set new rates on those facilities.

RM12-18

The KCC has filed comments in support of FERC's proposed rulemaking regarding increased reporting requirements for FERC Form 6.

Telecommunications

OVERVIEW

The KCC regulates four main types of telecommunications carriers with varying degrees of regulation: Incumbent Local Exchange Carriers (ILECs); Electing Carriers; Competitive Local Exchange Carriers (CLECs); and Interexchange Carriers (IXCs) (also known as long distance carriers). These carriers serve a customer base ranging from as few as two customers to over 500,000 customers. The large carriers regulated by the KCC are noted below. A summary of each major docket associated with the telecommunications carriers follow this narrative section along with a listing of all other telecommunications dockets.

LARGE TELECOMMUNICATIONS CARRIERS

AT&T Communications of the Southwest, Inc.

Cox Kansas Telecom, LLC

Rural Telephone Service Co., Inc.

SBC Long Distance, Inc.

Southwestern Bell Telephone Company d/b/a AT&T Kansas

SureWest Kansas Licenses, LLC

Time Warner Cable Information Services, LLC

United Telephone Company of Kansas, Inc. d/b/a Century Link.

In addition to the eight large utilities listed above, the Commission has certificated 35 incumbent local exchange carriers (ILECs), 118 competitive local exchange carriers (CLECs), and 252 interexchange carriers (IXCs).

The KCC continues its effort in fulfilling its obligation to protect the rights and privileges of Kansas consumers in balance with the interests of telecommunications carriers. The evolution of competition in providing local and long distance telecommunications has, in some instances, resulted in greater choice of available services at a variety of rates with a wider

array of providers, packages, and bundles from which to choose. Technology developments have also continued to play a key role in the evolution of the industry.

KCC staff is responsible for the economic regulation, including but not limited to: processing incumbent local exchange carrier tariff filings and switched access rate filings; analyzing tariffs for compliance with KCC rules and regulations; administering consumer and carrier complaints; processing certificate filings, service cessations, and name changes; reviewing carrier-to-carrier interconnection agreements and providing mediation when necessary; ensuring quality services of the incumbent local exchange carriers; administering the Kansas Universal Service Fund (KUSF); auditing rate-of-return regulated ILECs; and processing eligible telecommunications carriers filings.

KANSAS UNIVERSAL SERVICE FUND

The Commission established the KUSF in 1996, as required by the Kansas Telecommunications Act. The KUSF is in its seventeenth year of providing support to local telephone service providers to assist in making universal service available in high-cost areas of the state, to provide dual-party relay service and telecommunications equipment for persons with disabilities, and to provide assistance to those with lower incomes through the Lifeline program. For the last several years, the KUSF has also provided funding for Kan-Ed. Effective March 1, 2013, the annual KUSF funding requirement is approximately \$61.6 million and the carrier assessment rate is 6.42%, an increase from the March 1, 2012, to February 28, 2013, assessment rate of 6.13%. The KUSF provides approximately \$53.7 million in high-cost support, \$4.7 million for low-income subscribers, \$869,000 for telecommunications relay service, \$636,000 for the telecommunications equipment program, \$1.2 million for Kan-Ed, and \$423,000 for the fund administration and carrier audits.

The Commission began audits of all ILECs receiving KUSF support in 2000. All of the rural LECs have elected rate-of-return regulation; therefore, the audits provide an opportunity for the Commission to determine whether the KUSF support is cost-based for each rural LEC. Although some of the audits have resulted in increased funding for some of the rural LECs, the audits have collectively reduced KUSF funding annually by over \$3.6 million dollars.

FEDERAL ISSUES

On March 16, 2010, the FCC delivered to Congress a National Broadband Plan (NBP) recommending that the FCC adopt cost-cutting measures for existing voice support and create a Connect America Fund (CAF), without increasing the overall size of the fund. The broad goal of the NBP is to support the provision of broadband communications in areas that would be unserved without such support or that depend on universal service support for the maintenance of existing broadband service. The FCC has initiated numerous proceedings aimed at implementing the NBP and intends to initiate many more in the next few years to attain the goals outlined in the NBP. The FCC has issued multiple orders and has various proceedings underway to:

- Create the Connect America Fund (CAF) to support broadband;
- Convert the “legacy” high-cost component of the federal Universal Service Fund (USF) to the CAF;
- Create a Mobility Fund to support 3G (or better) wireless coverage;
- Expand the Lifeline (low-income) program to allow subsidies to be provided for broadband;
- Broaden the USF contribution base to ensure sustainability; and
- Transition intercarrier compensation to a bill-and-keep regime.

The KCC is implementing the FCC reforms and determining how the reforms will affect Kansas, Kansas carriers, and the KUSF.

Water

OVERVIEW

The Kansas Corporation Commission (KCC) regulates five water companies, none of which fall into the large utility category. These water companies serve a customer base ranging from as few as 60 to as many as 1,500, with little to no potential of increasing their customer base. Customers served by these companies typically live in a suburban area approximately two to ten miles outside the city. The water supplied varies from city water supplied by a nearby town to ground water supplied by the company's own water wells. The water companies regulated by the KCC are noted below. A summary of each major docket associated with the companies follows this

narrative section along with a listing of all other water dockets.

WATER COMPANIES

Barton Hills Water District

Green Acres Mobile Home Park, LLC

Howison Heights, Inc.

Suburban Water, Inc.

Wheatland Water Plant, A Division of Wheatland Electric Cooperative, Inc.

During FY 2013, Suburban Water filed an abbreviated rate case requesting an increase in rates to recover the increased cost of water it was purchasing from the Kansas City Board of Public Utilities.

Howison Heights also filed a rate case requesting an increase based on an asser-

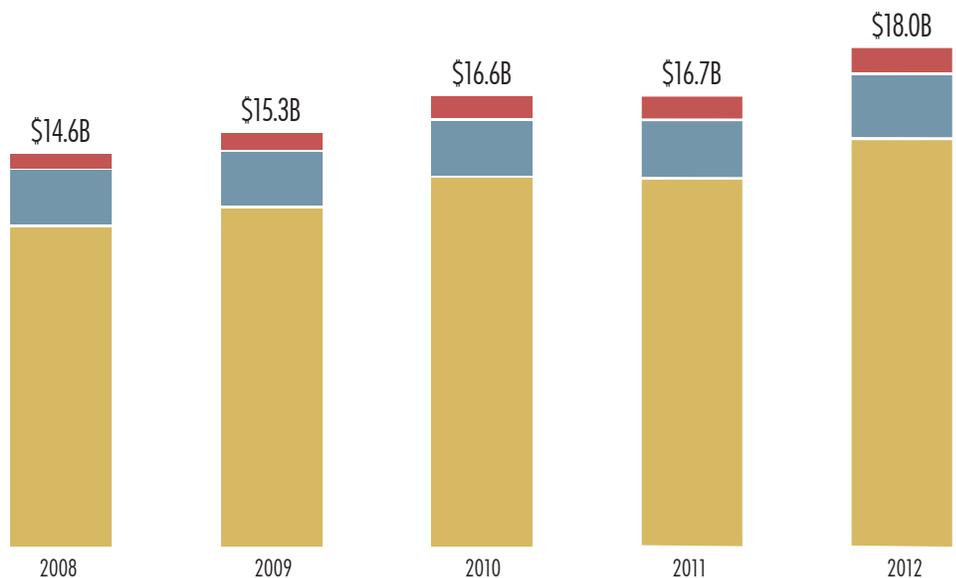

tion that current revenues did not cover existing operating expenses. Howison requested a very large percentage increase, but had several documented record keeping and book keeping deficiencies. During the rate case, several of the small water company's customers complained about Howison's business practices, quality of water, and the significant proposed increase in rates. The Commission opened a general investigation into Howison's ability to provide efficient and sufficient service given the company's documented financial distress and numerous customer complaints. The case was eventually withdrawn by Howison Heights so that it could renegotiate a bank loan and then attempt to sell the water company.

Financial Information and Other Metrics

OVERVIEW

The KCC sets rates for electric, natural gas, telecommunications, and water utilities on a rate base/rate of return basis for public or private utilities or a Times Interest Earned (TIER)/Debt Service Coverage Ratio (DSC) basis for cooperatives. For the electric, natural gas, and rural local exchange companies, the amount of capital investment, fuel and purchased power expense, total revenues, and total expenses are measured in billions of dollars. Following this overview section, more details are provided regarding financial information and other metrics for all the KCC jurisdictional utility industries on a consolidated and individual industry basis.

GAS, ELECTRIC, AND RURAL LOCAL EXCHANGE COMPANIES TOTAL RATE BASE | 2008–2012

GAS, ELECTRIC, AND RURAL LOCAL EXCHANGE COMPANIES TOTAL REVENUES AND EXPENSES | 2010–2012

TOTAL COMMENTS BY DOCKET | FY 2013

Ratepayers are given the opportunity to provide public comments on matters before the Commission.

13-HVDT-341-TAR	1	In the Matter of the Application of Haviland Telephone Company, Inc. Pursuant to K.S.A. 66-2007(b) to Increase its Local Rates.

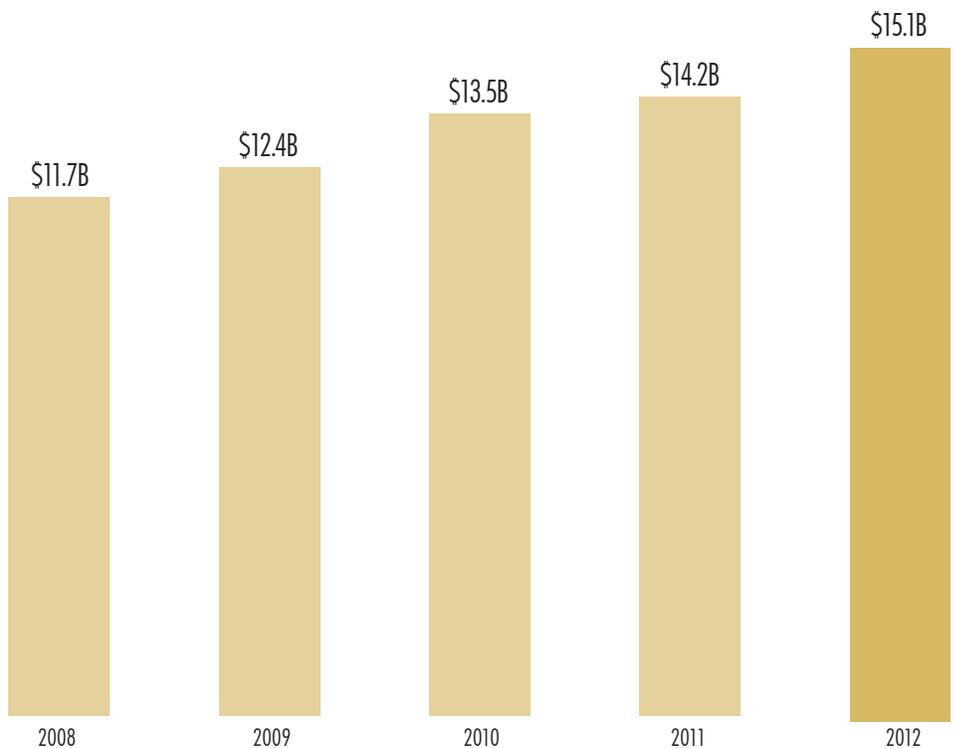

Electric Utilities

Financials

The following are selected Rate Base, Revenue, and Expense charts and tables including updated information beyond the close of the fiscal year, where available. Some charts depict information available only on a calendar-year basis. Empire District Electric and Kansas City Power & Light have operations in multiple states. The values represented in the following charts relate only to the Kansas operations of those two entities.

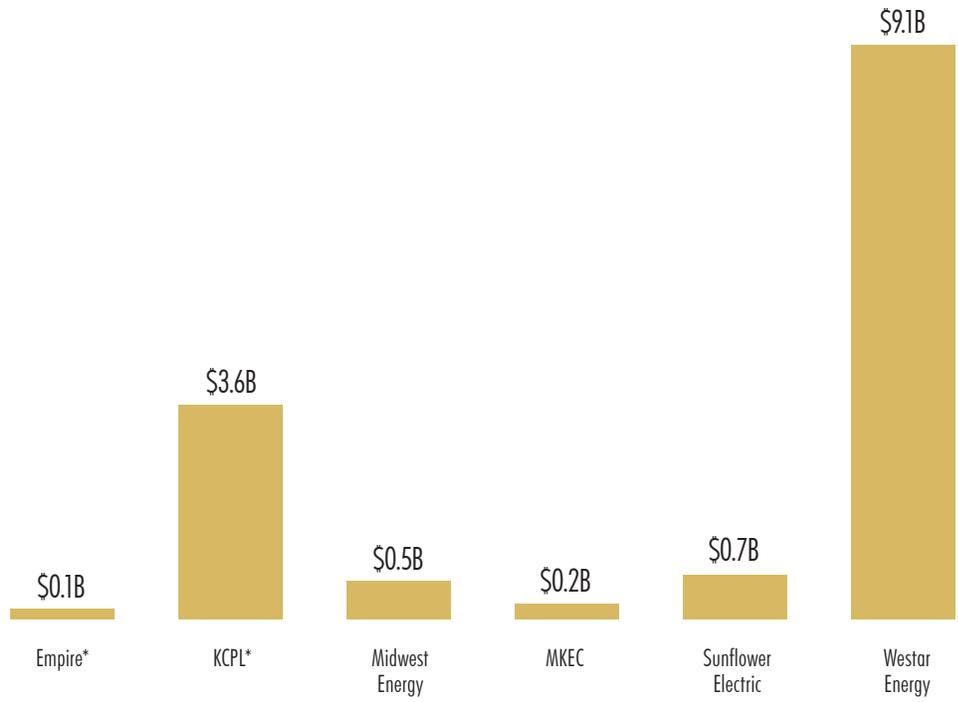

ELECTRIC COMPANIES STATEWIDE RATE BASE | 2008–2012

Rate Base is the sum total value of utility assets and property as well as the fixed cost of the generation and provision of service on which the Utility's rate of return is applied in accordance with rules set by the KCC. This chart displays the aggregate total rate base of all regulated public utilities in Kansas for the past five years.

ELECTRIC COMPANIES RATE BASE, BY COMPANY | 2012

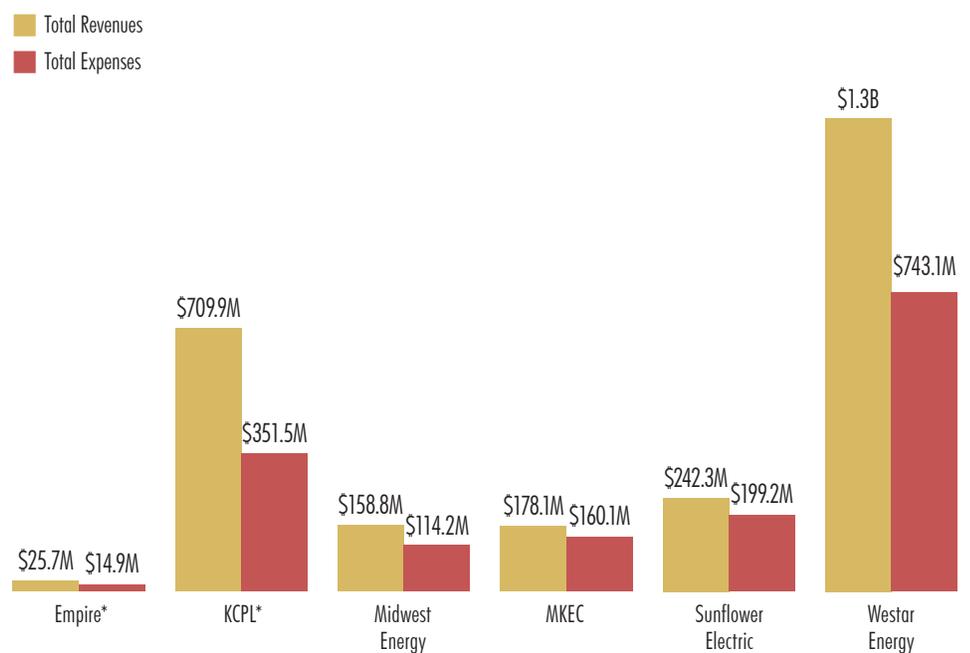

This chart takes the statewide aggregate rate base figure for 2012 from the preceding table and divides it among the major regulated utilities. As can be seen from the data, two entities encompass a vast majority of utility rate base across Kansas.

*All figures for Kansas operations only.

ELECTRIC COMPANIES REVENUES AND EXPENSES, BY COMPANY | 2012

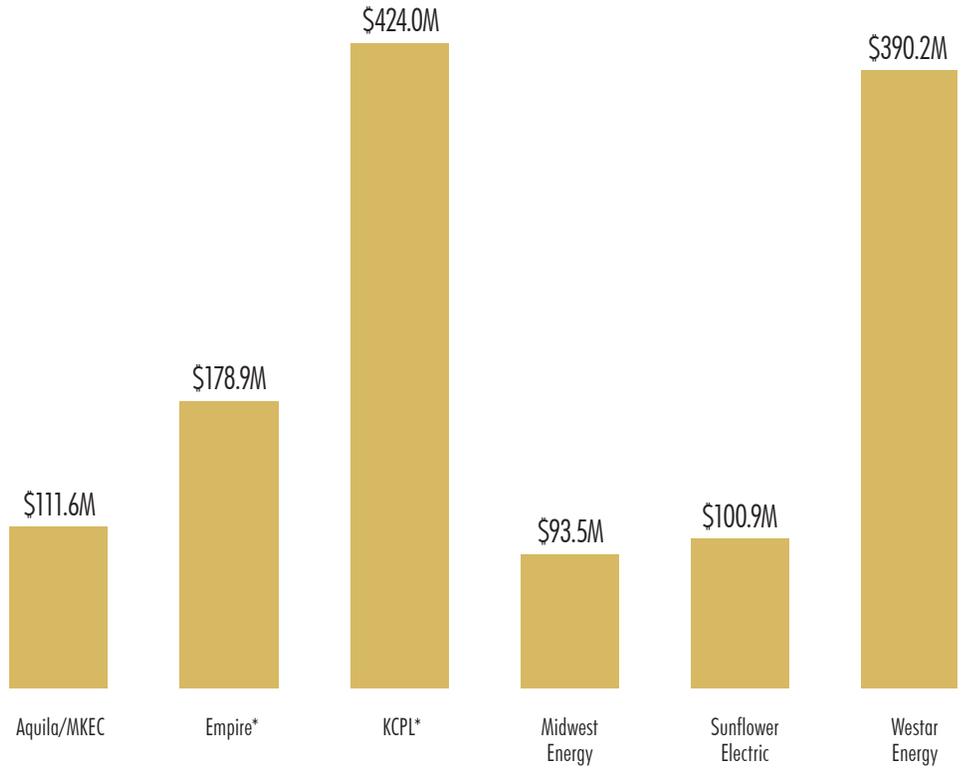

This chart compares each utility's annualized revenues and expenses. The difference between the two represents the gross margin of each company. Worth noting is the difference in gross margins between the investor-owned utilities and the cooperatives. Embedded in that difference is the dividend cost that rewards and helps ensure continued shareholder investment.

*All figures for Kansas operations only.

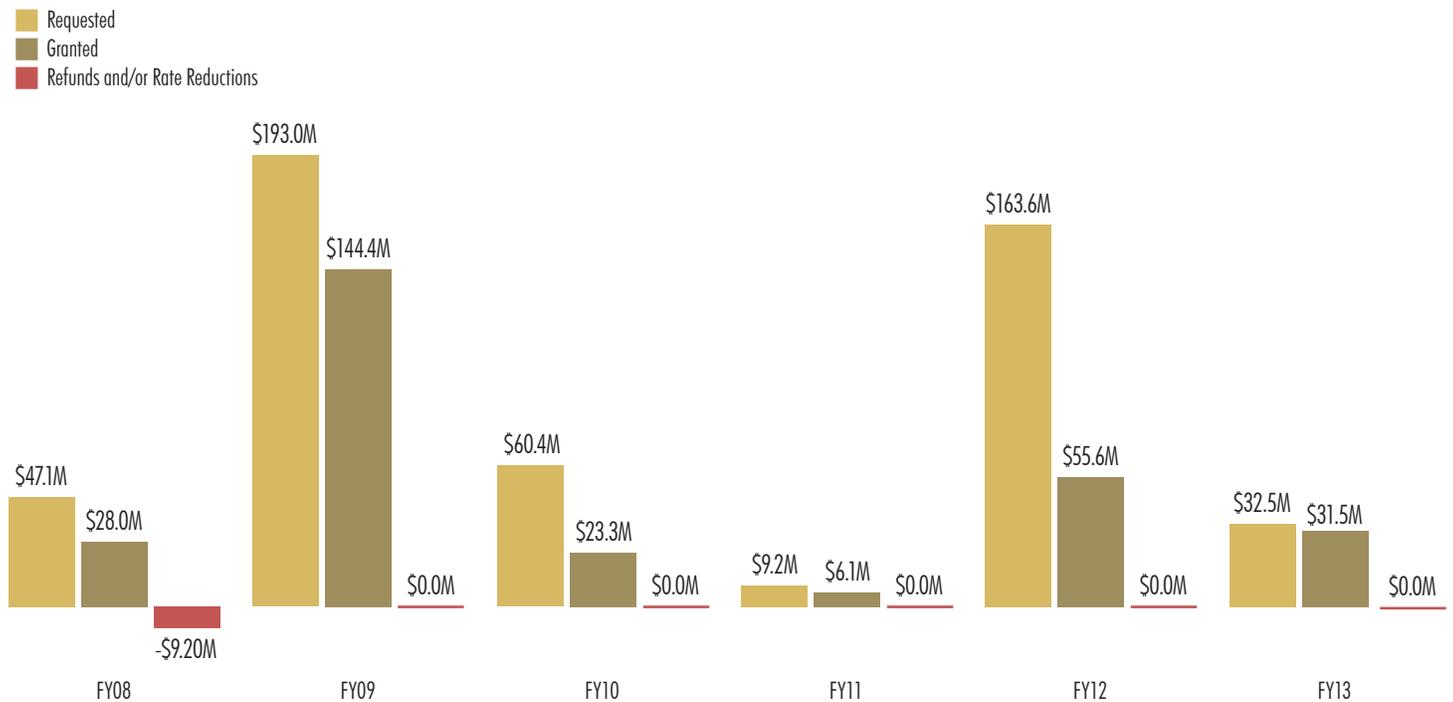

ELECTRIC COMPANIES GENERATING AND PURCHASED POWER COSTS, BY COMPANY | 2012

This chart takes the expense portion from each utility on the previous table and carves out the cost of generation and purchased power. As can be seen by comparing the two tables, generation and purchased power represent only about half the total cost of providing safe, reliable, and efficient electric service.

*All figures for Kansas operations only.

ELECTRIC COMPANIES WITH REVENUES OF OVER \$10M | RATE CASE RESULTS | FY08–FY13

ELECTRIC BILL COMPARISON

The following chart represents a comparison of monthly bills based on average residential consumption of 990 kWh.

Company	Customer Charge	Energy Charge	Fuel Adjust-ment***	Environmental Cost Recovery	Energy Efficiency Rider	Trans. Generation Planning Survey

The Commission continues to monitor the generation capacity and reliability of Kansas electric utilities. Staff members annually review generation and load forecasts of Kansas electric utilities to ascertain whether there is adequate electric supply to meet the needs of Kansas electric consumers. The findings of that survey can be seen below. Based on its 2011 review,

staff determined that, at this time, forecasted electric generation capacity and planning to meet future changes in system load in the State of Kansas appears sufficient given current load and generation forecasts planned. Although utilities in the chart do indicate deficiencies in the future, planned generation capacity additions can be made that will satisfy future plan-

ning responsibility. The chart on this page describes the generation capacity situation major utilities in Kansas face going forward.

Large Electric Rate Cases

WESTAR ENERGY, INC. AND KANSAS GAS AND ELECTRIC COMPANY

<i>Docket number</i>	<i>13-WSEE-629-RTS</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>15-Apr-13</i>
<i>Action date</i>	<i>21-Nov-13</i>
<i>Commission action</i>	<i>Approved</i>

In the Matter of the Joint Application of Westar Energy, Inc. and Kansas Gas and Electric Company for Approval to Make Certain Changes in Their Charges for Electric Service.

Westar Energy, Inc. and Kansas Gas and Electric Company (Westar) filed its Application for an abbreviated rate increase on April 15, 2013. The total request was a \$31.7 million increase in revenue requirement. Among the causes for the rate increase, the Company cited increasing costs of: 1) Updates to LaCygne Power plant; 2) Re-amortization of 2007 Ice Storm Costs; and 3) Promote Kansas. Westar also requested several changes in its rate design to better align rates with its calculated cost of service for different customer classes. These “rate design” changes were the most controversial aspect of the rate case, as several parties granted intervention in the case supported different cost allocation models used to calculate rates. On August 21, 2013, the parties filed their direct testimony. Staff recommended an increase of \$30.1 million; and The Citizens’ Utility Ratepayer Board (CURB) recommended increase of \$30.6 million. On September 20, 2013, the parties met collectively to discuss the possible settlement of issues in this matter. After extensive negotiations, the parties to the S&A agreed to an increase of \$30.7 and a universally supported rate design.

The Commission issued an Order approving the Unanimous Settlement Agreement on November 21, 2013.

MID-KANSAS ELECTRIC COMPANY, LLC

<i>Docket number</i>	<i>13-MKKEE-699-RTS</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>17-May-13</i>
<i>Action date</i>	<i>24-Sep-13</i>
<i>Commission action</i>	<i>Approved</i>

In the Matter of the Application of Mid-Kansas Electric Company, LLC for Approval to Make Certain Changes to its Charges for Electric Services in the Geographic Service Territory Served by Southern Pioneer Electric Company.

Mid-Kansas Electric Company, LLC (Mid-Kansas) filed this abbreviated rate case for the purpose of recovering increased debt service costs as a result of debt levels that exceeded Southern Pioneer Electric Company’s (Southern Pioneer) existing level of debt at the time of Docket No 12-MKKEE-380-RTS (380 Docket). The Settlement in the 380 Docket stated that this was the only issue to be litigated in the abbreviated rate case, and that a debt service coverage ratio of 1.8 would be used in calculating the revenue increase. In the 699 Docket, Mid-Kansas requested a revenue increase of \$780,188. On August 12, 2013, direct testimonies were filed by Staff, the Citizens’ Utility Ratepayer Board (CURB), and Western Kansas Industrial Electric Customers (WKIEC). Staff recommended a rate increase of \$777,955; CURB recommended a \$778,565 increase; WKIEC offered no position on the revenue increase. On September 4, 2013, all parties entered into a unanimous settlement agreement where it was agreed that Southern Pioneer’s revenue increase should be \$778,565. The parties also agreed that the increase would be allocated according to base revenues, the calculation of which should exclude wholesale power costs, and that the billing determinants established in the 380 Docket would be employed in designing the new rates. In addition, the parties requested that the Commission waive the evidentiary hearing and the remainder of the procedural schedule.

The Commission issued an Order approving the Settlement Agreement on September 24, 2013.

Major Dockets | ELECTRIC UTILITIES

Pursuant to K.S.A. 66-117b, the following is a review with narrative of all dockets for Large Electric Utilities (those with \$10,000,000 or more annual revenue in the preceding calendar year) which caused changes to “rule or regulation or practice pertaining to the service or rates of a public utility or common carrier approved by the state corporation commission during the preceding fiscal year.” That year runs from July 1, 2012, through June 30, 2013.

MID-KANSAS ELECTRIC COMPANY, LLC AND JOINT APPLICANTS

Docket number 13-MKEE-447-MIS
Docket type Electric
Date filed 07 Jan 2013
Action date 17 Sep 2013
Commission action Approved

In the Matter of the Joint Application of Mid-Kansas Electric Company, LLC, Lane-Scott Electric Cooperative, Inc., Prairie Land Electric Cooperative, Inc., Southern Pioneer Electric Company, Victory Electric Cooperative Association, Inc., Western Cooperative Electric Association, Inc., and Wheatland Electric Cooperative, Inc., Joint Applicants, for an Order Approving the Transfer of Certificates of Convenience With Respect to All of Mid-Kansas’ Retail Electric Services and for Other Related Relief.

On Jan 7, 2013, Mid-Kansas Electric Company, LLC and the six Member-Owners of Mid-Kansas filed their Application requesting that the Commission: issue an Order transferring Mid-Kansas’ certificate to the six separate Mid-Kansas owners, approve a new Wholesale Requirements Agreement between Mid-Kansas and the Member-Owners, establish the wholesale rate that KEPCO would be allowed to charge its share of the Victory and Prairie Land load, and approve the assignment of the Sunflower and KEPCO’s existing all-requirements contracts to Mid-Kansas.

This case involved several complicated legal and jurisdictional analyses, briefing, oral arguments, etc. culminating in the Commission issuing an Order finding that it lacked the jurisdiction to set KEPCO’s rates and approve various agreements between the parties relating to service territory, assignment of wholesale contracts, etc. As a result, the parties negotiated a separate agreement entitled the Modification Agreement which was jurisdictional to the Commission and resolved all the

outstanding issues between the parties, paving the way forward to spin-down the certificates. On August 9, 2013, the parties presented the Unanimous Stipulation and Agreement to the Commission. On September 17, 2013, it was approved.

MID-KANSAS ELECTRIC COMPANY, LLC AND SOUTHERN PIONEER

Docket number 13-MKEE-452-MIS
Docket type Electric
Date filed 08 Jan 2013
Action date 26 Sep 2013
Commission action Approved

In the Matter of the Application of Mid-Kansas Electric Company, LLC for Approval of a Debt Service Coverage Formula Based Ratemaking Pilot Plan for the Geographic Territory Served by its Member-Owner Southern Pioneer Electric Company.

On Jan 8, 2013, Mid-Kansas Electric Company, LLC filed an Application requesting that the Commission approve a modification to the way its divisional rates are set for Southern Pioneer. Mid-Kansas and Southern Pioneer sought the Commission’s approval to use a formula rate plan centered around the Debt Service Coverage ratio to set its rates on a going forward basis for the next five years. Mid-Kansas’ request was supported by the uniqueness and inability to deregulate of Southern Pioneer, which is a C-Corp wholly owned by a Consumer-Owned Cooperative. Staff and other interveners filed testimony on May 3, 2013. After suggesting several substantive changes to the scope and timeline for review of the plan, staff supported the plan, citing the need to think creatively to determine a rate setting method less expensive and

time consuming for this unique utility which doesn’t necessarily have the same economic incentives to extract monopoly profits from its customers. After settlement discussions, the Company, staff, and an industrial intervener joined together in a settlement, with CURB opposing. The settlement was essentially staff’s filed position, with minor tweaks and a small rate design change. The Commission approved the settlement on September 26, 2013.

SUNFLOWER ELECTRIC POWER CORPORATION

Docket number 13-SEPE-701-TAR
Docket type Electric
Date filed 16 May 2013
Action date n/a
Commission action Not Final

In the Matter of the Application of Sunflower Electric Power Corporation for Approval to Adopt and Implement a Formula-Based Rates for Recovery of Transmission Costs and to Amend its Open Access Transmission Tariff.

On May 16, 2013, Sunflower filed an application with the Commission for implementation of a Formula Based Rate (FBR) that would allow it to update annually the revenue requirement associated with investments in transmission projects in the Open Access Transmission Tariff (OATT) on file with the Southwest Power Pool. Staff filed testimony on September 6, 2013, and recommended several changes to the FBR, and the Protocols that governed the implementation and annual updating of the FBR. These changes included elimination of the incentive return for RTO membership, limits to the annual increases in

operating expenses, several adjustments to reflect revenue and exclude expenses, and several enhancements to the review procedures called for in the Protocols. On September 27, 2013, Sunflower filed rebuttal testimony to staff's recommendations. This matter is still before the Commission.

SUNFLOWER ELECTRIC POWER CORPORATION

Docket number 13-SEPE-433-TAR
Docket type Electric
Date filed 21 Dec 2012
Action date 17 Apr 2013
Commission action Approved

In the Matter of the Application of Sunflower Electric Power Corporation to Approve Extraordinary Transmission Facility Extension Service Terms as an Appendix to Its Open Access Transmission Tariff.

Sunflower Electric Power Corporation (Sunflower) filed an application on December 12, 2012, seeking approval of Extraordinary Transmission Facility Extension Service Terms. The request was driven by the forecasted load requirements and desire for expedited electrical service needed by the Oil Industry in the Mississippian Lime Play. The parties agreed to terms wherein large electrical loads would pay for the extension of transmission lines required to provide for the needs of said large electrical loads; and, that future large users on the same lines would contribute to the capital costs of those transmission lines. The Commission issued an Order approving the Service Terms on April 17, 2013.

MID-KANSAS ELECTRIC COMPANY, LLC

Docket number 13-MKEE-434-TAR
Docket type Electric
Date filed 21 Dec 2012
Action date 17 Apr 2013
Commission action Approved

In the Matter of the Application of Mid-Kansas Electric Company, LLC to Approve Extraordinary Transmission Facility Extension Service Terms as an Appendix to Its Open Access Transmission Tariff.

Mid-Kansas Electric Company, LLC (Mid-Kansas) filed an application on December 12, 2012, seeking approval of Extraordinary Transmission Facility

Extension Service Terms. The request was driven by the forecasted load requirements and desire for expedited electrical service needed by the Oil Industry in the Mississippian Lime Play. The parties agreed to terms wherein large electrical loads would pay for the extension of transmission lines required to provide for the needs of said large electrical loads; and, that future large users on the same lines would contribute to the capital costs of those transmission lines. The Commission issued an Order approving the Service Terms on April 17, 2013.

WESTAR ENERGY, INC.

Docket number 13-WSEE-676-MIS
Docket type Electric
Date filed 03 May 2013
Action date 29 Aug 2013
Commission action Approved

In the Matter of the Application of Westar Energy, Inc. for a Siting Permit for the Construction of a 345 kV Transmission Line in Saline and Ottawa Counties, Kansas.

Westar Energy, Inc. (Westar) filed its Transmission Line Siting Application on May 3, 2013, seeking approval to build a new 345 kV Transmission Line starting at its Summit Substation near Salina, Kansas. Westar will build approximately 30 miles north into Ottawa County where Westar will meet ITC Great Plains (ITC). ITC will continue the project to its Elm Creek Substation near Concordia, Kansas. The Westar portion of the project is estimated to cost \$66 million. Westar will seek 150 foot easements from landowners along its route. Completion is expected by Dec 2016. The Commission issued an Order approving the route on August 29, 2013.

ITC GREAT PLAINS, LLC AND MID-KANSAS ELECTRIC COMPANY, LLC

Docket Number 13-ITCE-677-MIS
Docket Type Electric
Date filed 03 May 2013
Action date 27 Aug 2013
Commission action Approved

In the Matter of the Application of ITC Great Plains, LLC and Mid-Kansas Electric Company, LLC for a Siting Permit for the Construction of a 345 kV Transmission Line in Cloud and Ottawa Counties, Kansas.

ITC Great Plains, LLC (ITC) and Mid-

Kansas Electric Company, LLC filed its Transmission Line Siting Application on May 3, 2013, seeking approval to build a new 345 kV Transmission Line starting at its Elm Creek Substation near Concordia, Kansas. ITC will build approximately 30 miles south into Ottawa County where ITC Great Plains will meet Westar Energy. Westar Energy will continue the project to its Summit Substation near Salina, Kansas. The ITC portion of the project is estimated to cost \$47 million. ITC will seek 200 foot easements from landowners along its route. Completion is expected sometime in 2016. The Commission issued an Order approving the route on August 27, 2013.

GRAIN BELT EXPRESS CLEAN LINE, LLC

Docket number 13-GBEE-803-MIS
Docket type Electric
Date filed 15 Jul 2013
Action date 07 Nov 2013
Commission action Approved

In the Matter of the Application of Grain Belt Express Clean Line LLC for a Siting Permit for the Construction of a High Voltage Direct Current Transmission Line in Ford, Hodgeman, Edwards, Pawnee, Barton, Russell, Osborne, Mitchell, Cloud, Washington, Marshall, Nemaha, Brown, and Doniphan Counties Pursuant to K.S.A. 66-1,177, et seq.

Grain Belt Express Clean Line, LLC filed its Transmission Line Siting Application on July 15, 2013, seeking approval to build a new 600 kV High Voltage Direct Current Transmission Line starting in Ford County, Kansas, and routing approximately 370 miles to the Missouri River, south of St Joseph, Missouri, continuing to Indiana. The Kansas portion of this project is estimated to cost \$900 million, which will be recovered from Wind Farm Developers connecting to the Grain Belt Express and Utilities who will purchase wholesale energy from those Wind Farm Developers. Grain Belt will seek 200 foot easements from landowners along its route. Completion is expected sometime in 2018. The Commission issued an Order approving the route on November 7, 2013. Prior to construction Grain Belt Express must obtain transmission siting approval from Missouri, Illinois, and Indiana state utility commissions.

Dockets

LARGE ELECTRIC UTILITIES (revenues of more than \$10M)

The Commission acted upon the following dockets filed by Large Electric Utilities from July 1, 2012, to June 30, 2013. These filings involved companies with operating revenues of more than \$10,000,000.

Natural Gas Utilities

Financials

The following are selected Rate Base, Revenue, and Expense charts and tables including updated information beyond the close of the fiscal year, where available. Some charts depict information available only on a calendar-year basis.

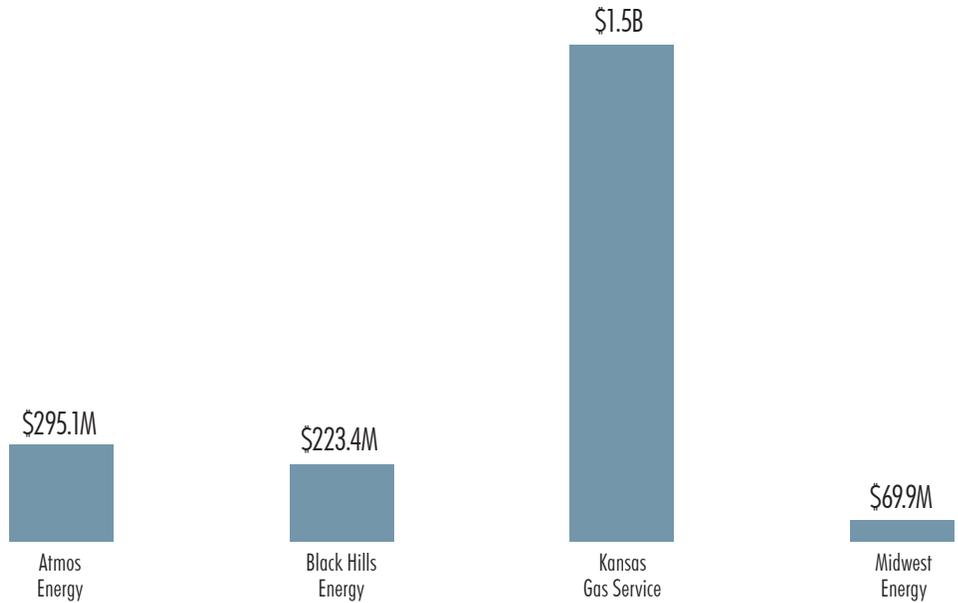

GAS COMPANIES STATEWIDE RATE BASE | 2008–2012

Rate Base is the sum total value of utility assets and property as well as the fixed cost of the generation and provision of service on which the Utility's rate of return is applied in accordance with rules set by the KCC. This chart displays the aggregate total rate base of all regulated public utilities in Kansas for the past five years.

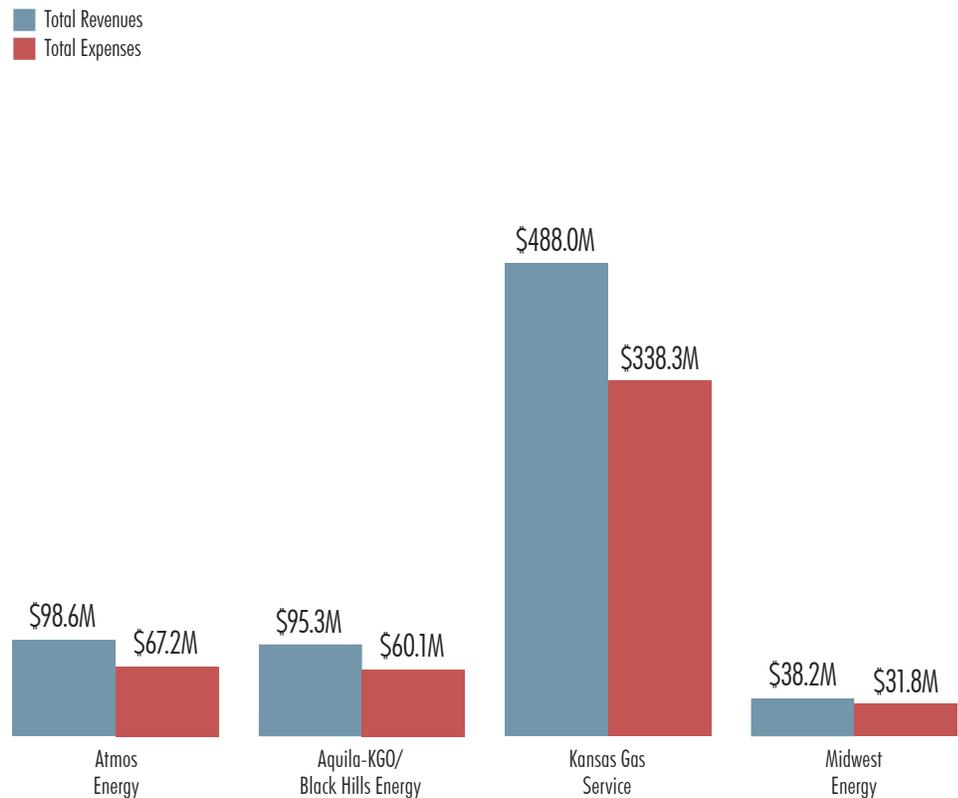

GAS COMPANIES RATE BASE, BY COMPANY | 2012

This chart takes the statewide aggregate rate base figure for 2012 from the preceding table and divides it among the major regulated utilities. As can be seen from the data, one entity encompasses a vast majority of utility rate base across Kansas.

GAS COMPANIES REVENUES AND EXPENSES, BY COMPANY | 2012

This chart compares each utility's annualized revenues and expenses and the difference between the two represents the gross margin of each company.

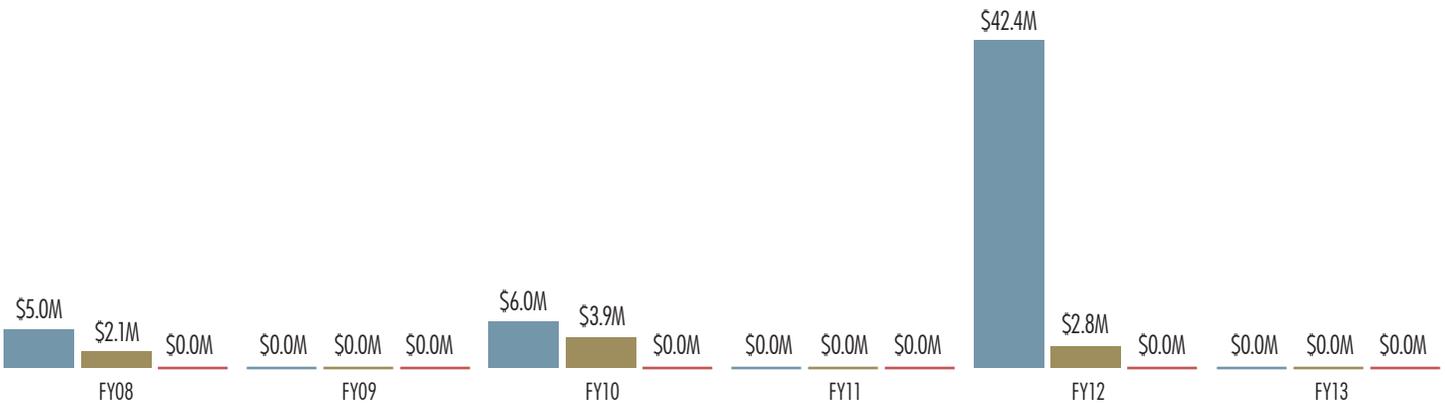

TOTAL PURCHASED GAS (GAS UTILITIES) AND TOTAL PURCHASED FUEL FOR GENERATION (ELECTRIC UTILITIES)

This chart shows the total natural gas purchased for utility use for the last two years. Each column bar is broken down into blue and yellow portions. The blue represents gas purchased by the gas utilities for regulated delivery to their retail and wholesale customers. The yellow represents natural gas “fuel” purchased by electric utilities for natural gas-fired generation of electricity. Whereas the bulk of retail gas use (blue) is for winter heating, utility gas fuel use is pre-dominantly during peak electric usage summer months where baseload nuclear and coal generation have already been dispatched and the remaining load must be served by gas-fired generation.

GAS UTILITIES WITH REVENUES OF OVER \$10M | RATE CASE RESULTS | FY08–FY13

- Requested
- Granted
- Refunds and/or Rate Reductions

RESIDENTIAL GAS BILL COMPARISON

The following chart represents a comparison of monthly bills based on average residential consumption of 10 Mcf.

Company**	Customer Charge	Commodity Margin	Cost of Gas***	Hedge Factor	Bill Without Tax	Cost Per MCF	% of National Average	% of Kansas Average	Tariff Margin	Hedge	Purchased Gas Adjustment	2012 Average: Customers	2012 Average: Dollars

Major Dockets | NATURAL GAS PIPELINE SAFETY

KANSAS GAS SERVICE

Docket number 12-KGSG-490-GIG
Docket type Gas
Date filed 04 Jan 2012
Action date 08 May 2013
Commission action: Final Order

In the Matter of the General Investigation Into Potential Involvement of Escaped Natural Gas from a Pipeline Operated by Kansas Gas Service in the December 20, 2011, Explosion Resulting in Injury to Persons and Property in Wichita, Kansas.

On August 29, 2012, staff filed a Report and Recommendation which detailed its investigation. Staff reported that its investigation determined the explosion was the result of a crack in a KGS cast iron distribution main located 83 feet away from the residence. Staff found no violations of pipeline safety regulations associated with this incident. KGS disagreed with staff's findings that the leaking cast iron main was the source of gas that led to the explosion. The Commission ordered KGS to increase its leak surveys over cast iron piping in non-business locations to at least once per year.

KANSAS GAS SERVICE

Docket number 12-GIMG-584-GIP
Docket type Gas
Date filed 01 Feb 2012
Action date 13 Jun 2013
Commission action Final Order

In the Matter of the General Investigation into the Escaped of Natural Gas from a Pipeline Operated by Kansas Gas Service, Inc., A Division of ONEOK, on January 30, 2012, Resulting in an Explosion and Injury to Person and Property in Topeka, Kansas.

On August 31, 2012, staff filed a Report and Recommendation which determined the explosion was a result of an excavator damaging a KGS service line and neglecting to immediately call the City of Topeka emergency responders to report the damage. Staff's report also concluded that KGS violated three natural gas pipeline safety regulations related to responding to natural gas

emergencies by not having sufficient detail in its emergency procedures and not providing adequate training to its emergency first responders. The Commission issued a \$5,000 civil penalty to the excavator for violating the provisions of the Kansas Underground Damage Prevention Act. The Commission also approved a consent decree between KGS and staff that required KGS to modify its procedures, provide additional training to its personnel and to sponsor training exercises with public emergency responders. KGS also agreed to initiate a project to identify the areas of its distribution system in which steel gas mains are parallel to and occupy the same utility easement as sanitary sewer mains, where sewer main location information is available.

KANSAS UNDERGROUND UTILITY DAMAGE PREVENTION ACT

Docket number 13-DPAX-250-GIV
Docket type Gas
Date filed 19 Oct 2012
Action date 20 Feb 2013
Commission action Final Order

In the Matter of the General Investigation into the Operations of Kansas Gas Service, Inc., A Division of ONEOK, Edcom Inc., and the City of Wichita, Regarding Possible Violations of the Kansas Underground Utility Damage Prevention Act and the Commission's Authority to Impose Penalties and Injunctive Relief.

On December 18, 2012, staff filed a Report and Recommendation which determined damage to natural gas facilities occurred because of the failure of Kansas Gas Service and the City of Wichita to provide accurate locates of their adjacent buried utilities. A directional drilling excavator hit both the water main and a low pressure gas main. The damage caused water to enter the low-pressure system which resulted in over \$500,000 of costs to repair the damage and remove water from the gas system. The outage affected service to over 600 customers and in some cases

lasted for ten days. To mitigate the possibility of similar incidents occurring in the future, the Commission ordered KGS to provide notice to City officials and to plumbers regarding potential issues that could arise from any residual water in the gas system. KGS is also required to provide staff timely notice of each damage that occurs on its system. The Commission ordered the excavator involved in the incident to formalize its directional drilling training program regarding crossing other utilities.

GENERAL INVESTIGATION

Docket number 13-GIMX-688-GIP
Docket type Pipeline Safety
Date filed 22 May 2013
Action date n/a
Commission action Pass

In the Matter of the General Investigation into the Operations of Kansas Gas Service, Inc., A Division of ONEOK, and Dondlinger and Sons Construction Co. Inc., Regarding Possible Violations of the Kansas Underground Utility Damage Prevention Act and the Commission's Authority to Impose Penalties and Injunctive Relief.

On May 4, 2013, Dondlinger and Sons Construction Co., Inc. caused damage to an underground natural gas pipeline owned and operated by Kansas Gas Service, Inc. The damage occurred in Wichita, Kansas, and resulted in blowing gas which ignited and burned excavation equipment resulting in property loss in excess of \$100,000. On July 19, 2013, staff filed a Report and Recommendation which determined there were no violations of safety regulations associated with this incident. The incident was the result of the excavator's confusion over previously abandoned lines which led to the damage of the active pipeline. In order to avoid future confusion of this kind, staff recommended that KGS make both the location of abandoned facilities and the location of facilities with unusual depth available to cities and engineering firms working on public works projects. KGS has filed

a response to staff's Report and Recommendation disagreeing with the findings. At this time, the Docket remains open and discovery is ongoing regarding the response from KGS.

GENERAL INVESTIGATION

Docket number 12-GIMX-884-GIV
Docket type Pipeline Safety
Date filed 25 Jun 2012
Action date n/a
Commission action Pending

In the Matter of the General Investigation Into the Kansas Underground Utility Damage Prevention Act and the Kansas Notification Center.

The Commission opened a general investigation into the operation of the Kansas Notification Center for the purposes of defining the relationships between the Commission, the Notification Center and the current operator of the Notification center, Kansas One Call, Inc. Once such relationships are defined, the Commission directed the parties to establish guidelines and prepare rules and regulations if necessary to govern those relationships. Staffs preliminary findings determined the 'Notification Center' as the stand-alone entity envisioned by KUUDP A, does not exist. Rather, Kansas One Call System, Inc. (KOC) - a nonprofit private corporation - has been functioning as the Notification Center since before the inception of KUUDP A. In order to rectify this situation, Staff recommended the Commission use this Docket to provide the framework and procedural schedule necessary for establishing the Notification Center envisioned by KUUDP A. Until the Notification Center is fully activated, staff further recommended the Commission formally appoint the KOC as the interim operator of the Notification Center. At this time, a Board of Directors for the Notification Center has been established, and they are preparing bylaws for the newly founded organization.

BLACK HILLS ENERGY AND ANADARKO NATURAL GAS COMPANY, JOINT APPLICANTS

Docket number 13-BHCG-509-ACQ
Docket type Gas
Date filed 11 Feb 2013
Action date 10 Oct 2013
Commission action Approved

In the Matter of the Joint Application of Anadarko Natural Gas Company and Black Hills Energy, Joint Applicants, for an Order Approving the Transfer to Black Hills of ANGC's Certificates of Convenience and Necessity to its Natural Gas Utility Business, Including its Transmission and Distribution Facilities Located in the State of Kansas Used to Provide Utility Service and for Other Related Relief.

In a Joint Application filed on February 11, 2013 Anadarko and Black Hills requested that the Commission approve the transfer of ANGC's Certificates of Convenience and Necessity with respect to ANGC's Kansas natural gas utility gas business and operations to Black Hills. The Certificates and facilities requested is a 50 mile pipeline known as the Hugoton Residue Delivery System or HRDS. The transaction affects service to seven natural gas customers of ANGC by transferring these accounts to Black Hills. Black Hills will pay \$3.75 million, which is slightly below the net book value of the facilities. In a Report and Recommendation filed on July 11, 2013, staff agreed that the proposed transaction is in the public interest and recommended Commission approval with minor modifications. In comments filed on July 25, and cross comments filed on August 1, 2013, all of the parties to the docket agreed generally with staff's recommendation except for Southwest Kansas Irrigators or SWKI. SWKI argued vehemently that the transaction was not in the public interest for its customers due to the rate increase of approximately 20% that its customers would have to withstand. Staff, in its Report and Recommendation, offered a three year rate phase-in for SWKI and the other customers on the line. The case was fully litigated before the Commission on September 5, 2013. An Order was issued October 10, 2013, approving the transaction as filed.

BLACK HILLS/KANSAS GAS UTILITY COMPANY, LLC

Docket number 12-BHCG-519-GIG
Docket type Pipeline Safety
Date filed 20 Jan 2012
Action date 22 Aug 2012
Commission action Final Order

In the Matter of the General Investigation into Potential Involvement of Escaped Natural Gas from a Pipeline Operated by Black Hills/Kansas Gas Utility Company, LLC, d/b/a Black Hills Energy in the January 8, 2012, Explosion Resulting in Injury to Persons and Property in Sublette, Kansas.

In the Matter of the Application of Suburban Water Company, Inc., d/b/a Suburban Water Company for Approval of the Commission to Make Certain Changes in its Rates for Water Service.

On May 17, 2013, Suburban Water Company, Inc. (Suburban) requested a \$35,030 increase in revenues and a margin of 6% on its expenses. Suburban purchases 70% of its water from the Kansas City, Kansas, Board of Public Utilities (BPU). Suburban filed this rate case to seek recovery of the January 1, 2013, BPU rate increase, and rate case expense incurred in this rate case. Staff filed its Report and Recommendation on August 16, 2013, recommending an increase of \$21,398. CURB agreed with staff's recommendations and adjustments. On September 4, 2013, the parties entered into a unanimous settlement agreement. On September 19, 2013, the Commission approved a \$23,628 rate increase in the revenue requirement, and a 6% margin on the Company's expenses. Additionally, the Commission decided that Suburban should no longer be required to file monthly compliance reports in Docket No. 13-SUBW-175-CPL, and Suburban should file its ground water plan by September 30, 2013, with semi-annual

filing updates on its ground water plan beginning on April 1, 2014.

In the Matter of the Application of Howison Heights, Inc., for Approval of the Commission to Make Certain Changes in its Rates for Water Service.

On March 18, 2013, Howison Heights, Inc. (Howison) filed an application with the Commission requesting a rate increase of \$48,702, and a margin of 8% on its expenses. On May 9, 2013, staff filed its Report and Recommendation recommending a rate increase of \$47,231. Staff also made many recommendations to improve the Company's record keeping deficiencies. On May 20, 2013, CURB objected to staff's recommended rate increase arguing that the Company did not provide sufficient evidence to determine if the requested rates were just and reasonable. On June 6, 2013, the Commission approved staff's recommended rate increase on an interim basis. On June 21, 2013, CURB petitioned the Commission for a review of the June 6th Interim Order. After staff filed its report in early May, the Commission received comments and complaints from over one-third of the

Company's customers regarding water quality and service. On June 26, 2013, the Commission set aside its June 6th Interim Order, and ordered staff to file a supplemental Report and Recommendation within 30 days. On July 26, 2013, staff filed a supplemental Report and Recommendation recommending a rate increase of \$28,891 to be phased in over two years. On August 5, 2013, the Company filed a response to staff's supplemental report objecting to staff's recommended rate increase, and CURB filed a response agreeing to staff's rate increase. This docket has been consolidated with 13-HHIW-460-GIV. The Commission has scheduled a hearing for February 6 and 7, 2014.

In the Matter of the Investigation of Howison Heights, Inc's Ability to Provide Sufficient and Efficient Service.

On November 26, 2012, Central National Bank filed a petition in Saline County District Court seeking \$396,442 plus interest and costs from Tim Howison and Howison Heights, Inc. On January 14, 2013, Commission staff filed a Motion to Initiate Investigation with the Corporation Commission. On February 8, 2013, the

Commission ordered an investigation of Howison's ability to provide sufficient and efficient service to its customers. In May 2013, the Commission's Public Affairs and Consumer Protection Office received comments concerning Howison's water quality and service from over one-third of Howison's customers. On May 29, 2013, staff filed a motion to compel Howison to address the quality of service and indebtedness issues. On June 13, 2013, the Commission issued an Order compelling Howison to provide the information staff requested in its petition. On June 14, 2013, Howison filed a response that provided staff's requested information. By June 19, 2013, the Commission realized the issues involved in dockets 13-HHIW-460-GIV and 13-HHIW-570-RTS were so intertwined, it issued an Order combining the two dockets. On July 18, 2013, the Commission ordered Howison to perform system improvements and report to the Commission within 60-days. On July 24, 2013, Howison Heights, Inc. declared bankruptcy. The Commission has scheduled a hearing for February 6 and 7, 2014.

NUMBER OF KUSF TELECOMMUNICATION FILINGS | FY08–FY13

KUSF FUNDING OBLIGATIONS | 3/1/13 - 2/28/14

Major Dockets | LARGE TELECOM UTILITIES

Pursuant to K.S.A. 66-117b, the following is a review with narrative of all dockets for Large Telecom Utilities (those with \$10,000,000 or more annual revenue in the preceding calendar year) which caused changes to “rule or regulation or practice pertaining to the service or rates of a public utility or common carrier approved by the state corporation commission during the preceding fiscal year.”

GENERAL INVESTIGATION

Docket number 11-GIMT-420-GIT
Docket type Telecom
Date filed 07 Dec 2010
Action date 15 May 2013
Commission action Order Issued

In the Matter of a Review of the Forward-Looking High-Cost Model Used to Determine Cost-Based Kansas Universal Service Fund Support for Price Cap Carriers and Competitive Eligible Telecommunications Carriers Offering Service in Price Cap Carrier Study Areas.

This proceeding was opened to review a new forward-looking high-cost model for price cap carriers and competitive ETCs receiving KUSF support in the areas served by the price cap carriers, AT&T and CenturyLink. House Bill 2201, which was signed into law by Governor Brownback on April 17, 2013, amended K.S.A. 66-2008(c) and 66-2008(d)(2) to mandate high-cost per-line support for price cap regulated carriers to be unchanged from the original high-cost model proceedings until March 1, 2019. Due to the statutory changes, the KCC determined in an Order issued on May 15, 2013, that a review of the high-cost model for price cap carriers is unnecessary at this time and closed the Docket.

<http://estar.kcc.ks.gov/estar/portal/kcc/page/docket-docs/PSC/DocketDetails.aspx?DocketId=144c2266-f0cc-4d20-9535-177d618b3a95>

GENERAL INVESTIGATION

Docket number 12-GIMT-170-GIT
Docket type Telecom
Date filed 13 Sep 2011
Action date 29 May 2013
Commission action Order Issued

In the Matter of a General Investigation into the Kansas Universal Service Fund.

The KCC opened this proceeding to investigate issues related to the KUSF to determine if any changes need to be

made, pursuant to K.S.A. 66-2008(c). The issues to be investigated include: 1) a review of the impact the FCC’s federal USF and ICC reform will have on Kansas and the KUSF, including a review of the state’s definition of universal service; 2) a review of the KUSF pursuant to K.S.A. 66-2008(c) to determine if the costs of qualified telecommunications public utilities, telecommunications carriers and wireless telecommunications service providers to provide local service justify modification of the KUSF; and 3) to address any findings from the pending audit of the KUSF third party administrator in this docket. The FCC’s October 27, 2011, Order, which was released on November 18, 2011, was filed in this docket. The KCC held an Industry Conference and a Scheduling Conference on January 9, 2012. The KCC later requested comments and reply comments be filed on March 1, 2012, and April 2, 2012, respectively, and legal briefs be filed on April 16, 2012. Following a September 2012 staff report, the KCC issued an Order on November 15, 2012, requesting additional briefs and reply briefs be filed by December 17, 2012, and January 14, 2013, respectively. On May 29, 2013, the Commission issued an Order in which it: 1) adopted the legislature’s position that KUSF support cannot be provided to a rate of return local exchange carrier to offset any loss in FUSF support; 2) concluded that, consistent with the FCC Order, rural local exchange carriers are not entitled to KUSF support as a supplement for any revenue shortfall resulting from a reduction of its intrastate terminating access revenue; 3) elected not to address the definitions of universal service or enhanced universal service; 4) elected not to address the merits of eliminating KUSF support for areas served by an unsubsidized carrier, since no Kansas local exchange carrier appears to be affected; 5) declined to limit KUSF

support to \$250 per month, per line, as no carrier appears to be affected; 6) recognized that the Commission already acts within its authority to limit excessive capital investment and corporate operations expenses; and 7) found that K.S.A. 66-2008(e) does not require KUSF support for every dollar of a carrier’s cost and expenses and that KUSF may be provided based on a percentage of a carrier cost and expenses.

S&T TELEPHONE COOP ASSOCIATION, INC.

Docket number 12-S&TT-234-KSF
Docket type Telecom
Date filed 09 Dec 2011
Action date 15 Nov 2012
Commission action Order Issued

In the Matter of Staff’s Motion Requesting the Commission Order S & T Telephone Coop Association, Inc. to Submit to an Audit for Purposes of Determining its Cost Based Kansas Universal Service Fund Support, Pursuant to K.S.A. 66-2008.

The KCC opened this proceeding at the request of Commission staff to Order S&T to submit to an audit for purposes of determining its cost-based KUSF support, pursuant to K.S.A. 66-2008. S&T made its compliance filing on March 23, 2012, in which it requested an increase of \$1,167,107 in addition to its then current annual KUSF draw of \$832,038 for a total of \$1,999,145 in annual KUSF support. Commission staff filed testimony on August 15, 2012, recommending S&T’s annual KUSF support be reduced by \$736,443 for a proposed annual KUSF support amount of \$77,961. The parties reached a Stipulated Settlement Agreement in which S&T’s total annual KUSF support amount would be set at \$200,000 for the month of December 2012. There-

after, S&T shall receive \$450,000 per year, beginning January 1, 2013. The KCC issued an Order on November 15, 2012, adopting the Stipulated Settlement Agreement.

<http://estar.kcc.ks.gov/estar/portal/kcc/PSC/DocketDetails.aspx?DocketId=3f5976c0-8f3d-4080-8135-17b9117256d5>

GORHAM TELEPHONE COMPANY

Docket number	12-GRHT-633-KSF
Docket type	Telecom
Date filed	01 June 2012
Action date	05 Dec 2012
Commission action	Order Issued

In the Matter of Staff's Motion Requesting the Commission Order Gorham Telephone Company to Submit to an Audit for Purposes of Determining Its Cost-Based Kansas Universal Service Fund Support, Pursuant to K.S.A. 66-2008.

The KCC opened this proceeding at the request of Commission staff to order Gorham to submit to an audit for purposes of determining its cost-based KUSF support, pursuant to K.S.A. 66-2008. Gorham made its compliance filing on June 1, 2012, in which it requested an increase of \$1,073,777 in addition to its then current annual KUSF draw of \$179,357 for a total of \$1,257,500. On October 18, 2012, Commission staff filed its testimony recommending Gorham's annual KUSF support be increased by \$543,215 for a total annual KUSF support amount of \$722,572. The parties reached a Stipulated Settlement Agreement in which Gorham's total annual KUSF support amount would be set at \$744,357 per year. The KCC issued an Order on December 5, 2012, adopting the Stipulated Settlement Agreement.

LAHARPE TELEPHONE COMPANY, INC.

Docket number	12-LHPT-875-KSF
Docket type	Telecom
Date filed	15 Aug 2012
Action date	26 Jun 2013
Commission action	Order Issued

In the Matter of Staffs Motion Requesting the Commission Order LaHarpe Telephone Company, Inc. to Submit to an Audit for Purposes of Determining its Cost-Based Kansas Universal Service Fund Support, Pursuant to K.S.A. 66-2008.

The KCC opened this proceeding at the

request of Commission staff to order LaHarpe to submit to an audit for purposes of determining its cost-based KUSF support, pursuant to K.S.A. 66-2008. LaHarpe made its compliance filing on August 15, 2012, in which it requested an increase of \$525,162 in addition to its current annual KUSF draw of \$149,090 for a total of \$674,252. On December 19, 2012, staff filed testimony recommending LaHarpe's KUSF support be reduced from its current draw of \$149,090 to \$0. Rebuttal testimony was filed on behalf of LaHarpe on January 16, 2013, indicating LaHarpe's financial records indicated an excess of \$7,885, an adjustment of \$533,047 from LaHarpe's initial claim of a \$525,162 intrastate revenue deficiency. The KCC convened an evidentiary hearing to examine all disputed issues aside from the rate of return on March 14, 2013. Supplemental Rebuttal Testimony, limited to rate of return testimony, was filed on behalf of LaHarpe on April 2, 2013. A limited-scope evidentiary hearing on the rate-of-return issues was held on May 2, 2013. LaHarpe submitted its Initial Brief on May 31, 2013, Commission staff filed its Responsive Brief on June 10, 2013, and LaHarpe filed its Reply Brief on June 17, 2013. On June 26, 2013, the KCC issued its Order setting LaHarpe's annual KUSF support at \$19,293, effective July 2013, including auditing expenses which are to be recovered over five years.

<http://estar.kcc.ks.gov/estar/portal/kcc/page/docket-docs/PSC/DocketDetails.aspx?DocketId=262ee6eb-6dc0-4dd1-a6a7-57b448b60aaf>

GENERAL INVESTIGATION

Docket number	13-GIMT-004-GIT
Docket type	Telecom
Date filed	12 Jul 2012
Action date	22 May 2013
Commission action	Order Issued

In the Matter of a General Investigation Into the Adjustment of Intrastate Switched Access Charges for Rural Telephone Companies in Compliance with K.S.A. 66-2005(c).

The KCC opened this proceeding on July 12, 2012, to implement the biennial intrastate switched access charge revisions for the rural LECs, pursuant to K.S.A. 66-2005(c) and in conjunction with the FCC's intercarrier compensation reforms. On September 14, 2012, the KCC issued an Order that: 1) prevented the rural LECs from increasing their intrastate terminating access rates, but allowed the rural LECs to adjust intrastate

originating access rates as necessary to achieve parity with interstate rates; 2) declined to seek a waiver of the FCC's cap on intrastate terminating switched access rates; 3) elected to delay the intrastate access revisions from March 1, 2013 to July 1, 2013, to coincide with the FCC's access changes; 4) allowed intrastate originating access revenues lost due to moving to parity with interstate originating access rates to be recovered from the KUSF and any increases in intrastate access revenues resulting from intrastate access rate increases would result in reductions in KUSF support; and 5) transferred any issues relating to the Access Recovery Charge (ARC), Connect America Fund (CAF), and intrastate access revenue recovery for terminating access rate and revenue reductions from the KUSF to Docket 12-GIMT-170-GIT. On April 10, 2013, the KCC issued an Order that directed the rural LECs to file by April 25, 2013: 1) revisions to their intrastate access rates and rate structure due to the FCC's revised interstate rates; 2) their Baseline and Eligible Recovery data utilizing the form provided by the FCC; and 3) their annual certification that they are not seeking duplicative recovery in Kansas for any costs or revenues already being recovered as Eligible Recovery through ARCs or the CAF. The KCC issued an Order on May 22, 2013, approving the revised intrastate access rates, to be effective July 2, 2013.

<http://estar.kcc.ks.gov/estar/portal/kcc/page/docket-docs/PSC/DocketDetails.aspx?DocketId=ce9ea931-e619-4a30-ae0-463f2910149b>

ZENDA TELEPHONE COMPANY, INC.

Docket number	13-ZENT-065-AUD
Docket type	Telecom
Date filed	26 Dec 2012
Action date	03 July 2013
Commission action	Order Issued

In the Matter of Staff's Motion Requesting the Commission Order Zenda Telephone Company, Inc. to Submit to an Audit for Purposes of Determining Its Cost-Based Kansas Universal Service Fund Support, Pursuant to K.S.A. 66-2008.

The KCC opened this proceeding at the request of Commission staff to Order Zenda to submit to an audit for purposes of determining its cost-based KUSF support, pursuant to K.S.A. 66-2008. Zenda made its compliance filing on December 26, 2012, in which it suggested an increase in KUSF support from \$92,513 (the amount drawn at the time of application) annually,

to \$552,363, or an increase in support of \$459,850. On May 17, 2013, staff filed its direct testimony recommending Zenda's KUSF be increased by \$193,148 from \$91,715 (the amount set on July 1, 2013) to \$284,863. Rebuttal testimony was filed on behalf of Zenda on May 31, 2013, indicating Zenda should, at a minimum, receive an increase in its annual KUSF support from \$91,715 to \$445,201, or an increase in support of \$353,486. The parties reached a Stipulated Settlement Agreement in which Zenda's support would be set at \$311,715 per year, an increase in support of \$220,000. The amount includes audit expenses of \$49,453, which will be recovered over a five-year amortization period. The KCC issued an Order on July 3, 2013, adopting the Stipulated Settlement Agreement, setting Zenda's KUSF support at \$311,715, effective August 1, 2013.

GENERAL INVESTIGATION

<i>Docket number</i>	13-GIMT-130-GIT
<i>Docket type</i>	Telecom
<i>Date filed</i>	12 Aug 2012
<i>Action date</i>	16 Jan 2013
<i>Commission action</i>	Order Issued

In the Matter of a General Investigation to Determine the Assessment Rate for the Seventeenth Year of the Kansas Universal Service Fund, Effective March 1, 2013.

In this proceeding, the KCC determined the appropriate assessment rate for the seventeenth year of the KUSF. The KCC adopted staff's recommended KUSF assessment rate of 6.42%, to be effective March 1, 2013.

<http://estar.kcc.ks.gov/estar/portal/kcc/page/docket-docs/PSC/DocketDetails.aspx?DocketId=0e551f83-4feb-42b2-b350-eacaa725da29>

GENERAL INVESTIGATION

<i>Docket number</i>	13-GIMT-260-GIT
<i>Docket type</i>	Telecom
<i>Date filed</i>	25 Oct 2012
<i>Action date</i>	22 May 2013
<i>Commission action</i>	Order Issued

In the Matter of a General Investigation to Review and Determine Whether the Kansas Universal Service Fund (KUSF) Should Support All Lines or be Limited to a Primary

Line, Whether KUSF Support Available to Competitive Eligible Telecommunications Providers Should be Limited, and Other Appropriate Issues Related to Initial or Supplemental KUSF Support.

The KCC opened this proceeding to address the following issues: 1) whether, and how, to implement a primary line policy for KUSF purposes; 2) whether the identical support or equal payment policy should be modified for competitive ETCs; and 3) other issues related to supplemental KUSF support. Comments on the issues were filed by December 10, 2012, and reply comments by January 7, 2013. HB 2201, which was signed into law by Governor Brownback on April 17, 2013, and effective July 1, 2013, largely mooted the issues in this Docket. The KCC, therefore, issued an Order on May 22, 2013, ending the investigation and closing the Docket.

CRAW-KAN TELEPHONE COOPERATIVE, INC.

<i>Docket number</i>	13-CRKT-268-KSF
<i>Docket type</i>	Telecom
<i>Date filed</i>	16 OCT 2012
<i>Action date</i>	17 APRIL 2013
<i>Commission action</i>	Order Issued

In the Matter of the Application and Request of Craw-Kan Telephone Cooperative, Inc. for an Increase in Its Cost-Based Kansas Universal Service Fund Support.

Craw-Kan filed an application requesting an increase of \$2,486,822 in its high-cost KUSF support on October 16, 2012. Direct testimony was filed on behalf of Commission staff on March 13, 2013, recommending an annual increase to Craw-Kan's KUSF support by \$1,714,075 from the annual support level at the time of staff's filing of \$737,295, for a total KUSF support of \$2,451,370. Rebuttal testimony was filed on March 26, 2013, in which the company largely concurred with staff's position. The parties filed a motion on March 28, 2013, requesting the Commission set Craw-Kan's support amount at the amount proposed in staff's testimony. The KCC issued an Order on April 17, 2013, increasing Craw-Kan's support to \$2,451,370, effective May 1, 2013. The amount includes audit expenses of \$82,891, which will be recovered over a five-year amortization period.

J.B.N. TELEPHONE COMPANY, INC.

<i>Docket number</i>	13-JBNT-437-KSF
<i>Docket type</i>	Telecom
<i>Date filed</i>	31 Dec 2012
<i>Action date</i>	13 Jun 2013
<i>Commission action</i>	Order Issued

In the Matter of the Application and Request of J.B.N. Telephone Company, Inc. for an Increase in Its Cost-Based Kansas Universal Service Fund Support.

J.B.N. filed an application requesting an increase of \$864,942 in its high-cost KUSF support on December 31, 2012. Additional direct testimony was filed on behalf of J.B.N. on February 7, 2013. Direct testimony was filed on behalf of Commission staff on May 22, 2013, recommending an annual increase to J.B.N.'s KUSF support by \$559,332 from the current annual support level of \$143,206, for a total KUSF support of \$702,538. Rebuttal testimony was filed on May 31, 2013, on behalf of J.B.N. agreeing with staff's proposed level of KUSF support. The KCC issued an Order on June 13, 2013, increasing J.B.N.'s support by \$559,332 for a total annual KUSF support of \$702,538, effective July 1, 2013.

<i>Commission action</i>	Pending

In the Matter of a General Investigation to Review the Kansas Lifeline Service Program (KLSP) to Determine the Impact of the Increase in the Statewide Affordable Residential Rate for Rural Local Exchange Carriers to Their Lifeline Subscribers and Whether the \$7.77 Monthly Credit Should Be Modified.

The KCC opened this proceeding to review: 1) the impact that increases in the rural LEC residential local service rates and the KUSF assessment may have on the KLSP and KLSP subscribers; 2) whether the FCC's modifications to the federal Lifeline program would have an impact

on the KLSP; 3) other policy issues that could impact the KLSP; and 4) whether the impact from these issues should result in the current \$7.77 monthly per line KLSP discount being modified. Comments were filed on June 14, 2013, and reply comments were filed on August 15, 2013. Commission staff filed a Report and Recommendation on the comments in September 2013.

<http://estar.kcc.ks.gov/estar/portal/kcc/page/docket-docs/PSC/DocketDetails.aspx?DocketId=e451064e-bc68-4833-83fd-566278350697>

GENERAL INVESTIGATION

<i>Docket number</i>	<i>13-GIMT-736-GIT</i>
<i>Docket type</i>	<i>Telecom</i>
<i>Date filed</i>	<i>Jun 2013</i>
<i>Action date</i>	<i>n/a</i>
<i>Commission action</i>	<i>Pending</i>

In the Matter of a General Investigation into the Implementation of House Bill 2201 (2013 Kansas Legislature).

The KCC opened this proceeding to implement House Bill 2201 in an Order issued on June 13, 2013. The Order stated that, pursuant to HB 2201, tariffs on file with the Commission, excluding intrastate switched access tariffs and tariffs of local exchange carriers, will no longer be effective as of July 1, 2013, and telecommunications carriers that are required to file a quarterly quality of service report for the period of April – June 2013, should do so, but do not need to file quarterly quality of service reports for service provided on or after July 1, 2013. The Order also requested comment on several elements of HB 2201 that Commission staff identified as needing to be addressed: 1) implementing the \$30 million cap on rate of return carrier KUSF support; 2) adopting a procedure for handling tariffs; 3) addressing the continued applicability of the Commission’s billing standards; 4) applying quality of service standards; 5) filing of annual reports; 6) authorizing certificates of convenience for interexchange carriers; and 7) applying the identical support rule. The parties filed comments on the issues identified on July 19, 2013. On August 20, 2013, the KCC issued an Order: 1) finding that beginning July 1, 2013, the billing standards requirements are no longer applicable to telecommunications carriers and electing carriers; 2) clarifying that electing carriers do not need to file quar-

terly quality of service reports for service provided on or after July 1, 2013, and 3) requesting reply comments on the issues.

<http://estar.kcc.ks.gov/estar/portal/kcc/page/docket-docs/PSC/DocketDetails.aspx?DocketId=f881de01-6923-45b9-8271-ccc280452b2a>

The Commission acted upon the following dockets filed by Large Telecommunications Utilities from July 1, 2012, to June 30, 2013. These filings involved companies with operating revenues of more than \$10,000,000.

A semi-truck is shown from a low angle on the right side of the frame, parked on a road. The background features a bright sunset over a landscape with a bridge in the distance. The sky is a mix of orange, yellow, and blue, with the sun low on the horizon. The road curves into the distance, reflecting the light from the sun.

Transportation

The role of the Transportation Division of the Kansas Corporation Commission (KCC) is to ensure appropriate and effective regulatory oversight of motor carriers, with the goal of protecting the public interest and promoting safety through comprehensive planning, licensing, education, and inspection to the extent not preempted by federal law.

Motor Carriers

The chief responsibility of the Transportation Division is to develop, modify, and implement licensing, auditing, inspection, and other administrative procedures that promote effective and efficient motor carrier operations, while balancing public interest and safety and minimizing the administrative burden to the extent possible. Likewise, state law requires the KCC to verify that each new motor carrier is in compliance with the Commission's safety rules and regulations within 18 months of granting the motor carrier Commission operating authority. To advance the division's mission, Transportation conducts comprehensive investigations and audits on new and existing motor carriers taking appropriate action upon discovering unsafe conditions. The Transportation Division also works closely with the Kansas Highway Patrol (KHP) and the Federal Motor Carrier Safety Administration (FMCSA) to reduce the number of accidents involving motor carriers by promoting safety education to the motor carrier industry and through enforcement of state and federal regulations.

With regards to safety education, the

KCC mails invitations to each Kansas based motor carrier that applies for and receives a new USDOT number. The invitations are mailed monthly and are designed to encourage the new motor carriers to attend the free Commission sponsored Safety Seminars focused on the state and federal motor carrier rules and regulations. The Special Investigators (SIs) conduct the educational safety seminars throughout Kansas six times per month. Currently, motor carriers may now attend one of these seminars in Topeka, Chanute, Hutchinson, Pratt, Hays, or Garden City. These seminars are designed to inform and educate new, existing, and out-of-compliance motor carriers of the Commission's rules and regulations. Transportation staff also conducts educational safety seminars for the graduating classes at the truck driving technical schools in Liberal, Kansas City, and Fort Scott. Additionally, Transportation staff conducts educational safety seminars for the graduating classes at the truck driving technical schools in Fort Scott, Liberal, Kansas City, Topeka, and Wichita.

December 13, 2010, the Federal Motor Carrier Safety Administration formally implemented its new Comprehensive

Safety Analysis (CSA) motor carrier safety compliance program. The goal of CSA is to intervene early enough in a motor carrier's operation to permit the identification of problem areas and an opportunity for the motor carrier to correct the concerns before an accident occurs. The Federal New Entrant program requires all motor carriers seeking a federal interstate USDOT number to pass a safety audit within 18 months of beginning operations.

The CSA program focuses on 16 regulations that are considered essential to a motor carrier's basic safety plan and therefore necessary to operate in interstate commerce. The CSA audit uses on-road safety performance data to measure a carrier's safety fitness. The data is classified into seven specific categories of carrier/driver behavior to include: unsafe driving; fatigued driving (Hours of Service violations); driver fitness concerns; controlled substances/alcohol programs; vehicle maintenance concerns; cargo related safety concerns; and the carrier's crash indicator. A motor carrier's failure to comply with any one of the 16 regulations results in an automatic failure of the safety audit. A motor carrier who fails a new entrant

safety audit is provided formal notice of the failure and given 60 days to correct the problems identified. Only those carriers who fail to correct the problems or who fail to request either additional time or a formal review are subject to revocation of the carrier's interstate operating authority. Contrarily, a carrier who passes the review is moved to the bottom of the review list until such time as the carrier's safety indicators decline and require official intervention.

In keeping with this state's focus on motor carrier safety, the Commission, the Kansas Department of Revenue, and the Kansas Highway Patrol implemented a system which is aimed at halting the intrastate motor carrier operation of those interstate carriers who have failed to meet the minimum safety requirements of a New Entrant Safety Audit. Commission staff will submit formal recommendations to the Commission recommending the immediate suspension of the carrier listed on a federal out-of-service order. The Director of Vehicles will issue a "tag pick-up" request to the Kansas Highway Patrol. The loss of the registration plate will highlight the carrier and encourage compliance with the safety rules and regulations. It is important to note that motor carrier will have received numerous "touches" or contacts from federal and state officials with opportunities to correct the problems prior to being declared unsafe and placed out-of-service. Therefore, it is in the public's best interest that Kansas state agencies work together to address these types of safety concerns. At this time, the CSA program appears to be working as designed, focusing on those dangerous motor carrier operations and on those carriers who actively avoid safety compliance efforts.

The KCC, KHP, KDOR, and FMCSA share responsibilities in the enforcement of both the state and federal motor carrier safety and economic rules and regulations. This partnership has proven to be extremely efficient and effective in contacting more carriers and driv-

ers and in identifying high-risk carriers and drivers. As a result, it is possible for FMCSA and state enforcement agencies to apply a wider range of interventions aimed at correcting high-risk behavior.

Update: Commercial Driver's License (CDL) Reciprocity Agreements

Thanks to the diligent efforts of Ted Smith (Attorney, Kansas Department of Revenue) and our counterparts in Missouri, Nebraska, and Oklahoma, Kansas has successfully entered into Reciprocity Agreements which permit Kansas farmers to operate their commercial driver's license (CDL) class commercial motor vehicles (CMV) in interstate commerce within 150 miles from the farmer's place of operation without the necessity of obtaining a CDL under certain conditions. A farmer may benefit under this exemption when the farmer operating a vehicle holds a valid driver's license in the farmer's home state and the vehicle is properly operated as a farm vehicle under state law. The vehicle must be registered as a farm vehicle and be controlled and operated by a farmer for the exclusive purpose of transporting agricultural products, farm machinery, and/or farm supplies to or from the farmer's farm. We are also currently working on a similar agreement with representatives from Colorado.

Civil Assessment Program

The Kansas Corporation Commission (KCC) and the Kansas Highway Patrol (KHP) joined efforts in January, 2006, to enhance the Kansas Safety Compliance Program through the newly created Civil Assessment Penalty Program. The primary goal of the program was to reduce the number of injury/fatality accidents involving commercial motor vehicles through increased enforcement of the driver and motor carrier safety compliance. The KCC and KHP began working on this project as a direct result of 2004 Kansas statistics related to

commercial motor vehicles involved in injury and fatal accidents, which spiked dramatically.

The program emphasized the responsibilities of drivers and motor carriers under the Federal Motor Carrier Safety Regulations (FMCSR) regarding "out-of-service" violations. These violations are serious in nature and require that a driver or vehicle be removed from service until the violations are corrected. This category of violations was established through the Commercial Vehicle Safety Alliance (CVSA). CVSA is a nonprofit organization consisting of federal and state regulatory agencies, along with representation from the motor carrier industry dedicated to improving motor carrier safety.

- Effective January 1, 2006, KHP officers began issuing misdemeanor citations to drivers for out-of-service violations of the FMCSRs discovered during roadside safety inspections. This change in policy emphasizes driver responsibility and accountability. Items under their direct control include hours of service, safety fitness of vehicles through daily vehicle inspections, and cargo security.
- Effective April 1, 2006, the KCC began assessing civil penalties to motor carriers for out-of-service violations of the FMCSR discovered during roadside inspections. This component of the program emphasizes the responsibility of motor carriers to ensure compliance with the FMCSR and holds them accountable for any failure to comply. Examples include: requiring drivers to operate unsafe equipment; not having the proper credentials to operate the vehicle; and operating overweight vehicles.

An evaluation of the effectiveness of the roadside inspection program using information provided by the Motor Carrier Management Information System (MCMIS) reveals that Kansas conducted 52,454 inspections in 2009, and 57,019 inspections in 2012. While the number of inspections increased by more than

4,000, the out-of-service (OOS) rates for drivers have decreased from 7.2% in FFY 2009 to 5.43% in FFY 2012. Likewise, the OOS rate for the vehicles fell from 15.12% in FFY 2009 to 14.51% in FFY 2012. The state's aggressive enforcement effort has directly contributed to this downward trend of overall OOS violations.

Federal Interstate Authority Issue

HISTORY

The Unified Carrier Registration (UCR) Agreement is found in 49 USC section 14504a (hereinafter referred to as section 14504a). The UCR Agreement is established by federal law in the UCR Act, which is part of the federal highway reauthorization bill known as the Safe, Accountable, Flexible, Efficient Transportation Equity Act, A Legacy for Users ("SAFETEA-LU"), Public Law 109-59, enacted August 10, 2005. The UCR Act is sections 4301 through 4308 of SAFETEA-LU. In particular, the structure of the UCR Agreement is set forth in section 4305 of the UCR Act, which enacts section 14504a as a new section in 49 USC.

The UCR Agreement was amended under Section 301 of the SAFETEA-LU Technical Corrections Act of 2008, Public Law 110-244, enacted June 6, 2008, and in the Rail Safety Improvement Act of 2008, Public Law 110-432, enacted October 16, 2008. As of September 2011, SAFETEA-LU is currently under extension awaiting a new act of Congress. In the meantime, UCR remains in full force and effect and compliance is mandatory.

SUMMARY

The federal UCR (Unified Carrier Registration) agreement requires all for-hire motor carriers transporting property or passengers, and motor private carriers transporting property in interstate commerce, as well as brokers, freight forwarders, and leasing companies to

register with the United States Department of Transportation and pay UCR fees. Entities that receive USDOT numbers under the PRISM program as "registrants" but have no interstate operating authority, purely intrastate carriers, and private motor carriers transporting only passengers are not subject to UCR fees.

The UCR fees are structured based on fleet size, and trailers have been permanently removed from the fee calculation. Enforcement of non-payment of UCR fees began January 1, 2009, and is conducted through Kansas Highway Patrol verifying compliance through roadside inspections and at Ports of Entry, and through the Transportation Division Compliance Reviews. Additionally, Transportation mails notices to each Kansas-based motor carrier which acknowledges interstate activity on its USDOT profile, but has not registered or paid UCR fees for the appropriate year.

RESULTS

Collection of UCR fees directly affects a state's receipt of its allotment of federal funds. Kansas is focused on making the UCR program work as effectively and efficiently as possible. Transportation staff closely monitors the program and participates through quarterly conference calls with FMCSA and fellow state representatives. Staff has consistently responded to any calls for assistance and has shared information now found in the program's enforcement best practice guide. Kansas remains dedicated to this program and is currently ranked among the top eight states for compliance with the UCR as measured by the registration of motor carriers.

2013 Commercial Vehicle Information Systems Networks (CVISN) Grant Update

In February 2010, the FMCSA announced the availability of \$17,000,000 in additional CVISN grant funds. Additional federal funds under Section

4126(d)(3) provides up to \$1,000,000 funding for states to deploy, operate, and maintain elements of their CVISN programs. The elements include the commercial vehicle, commercial driver, and carrier specific information systems and networks. The KCC made a timely application seeking \$1,000,000 in grant funding. The grant requires a 50% soft match, which will come from Transportation's budget.

In November of 2011, prior to beginning execution of the Motor Carrier Rewrite project, the Kansas FMCSA Division Administrator notified the KCC that the proposed original grants match strategy was not acceptable. Working together, the KCC, FMCSA, and the Kansas CVISN team developed a revised grant match strategy. The original grant match strategy called for Indirect Matching Funds in the form of Kansas Compliance/Unified Carrier Registration (UCR) Programs KCC Personnel Services. The revised grant match strategy now calls for KCC Personnel Services Indirect Matching Funds in the form of: KCC Compliance staff "Industry Training Time," Office staff credentialing i.e. "KCC & FMCSA Authorities, IRP & IFTA & UCR & CVIEW compliance;" Project Manager Time; Information Technology staff time used to maintain project & CVIEW functions; and other KCC staff on implementing the grant/project. In May of 2012, FMCSA notified Kansas that the revised grant strategy was acceptable, but written confirmation from the granting authority is still pending. The indirect matching fund amount totals \$1,000,000.

On June 6, 2012, Transportation received the application to amend its grant information from FMCSA; the amendment updated the soft match strategies and project schedule timelines. On September 18, 2012, Transportation received confirmation from the Kansas Division Administrator of the FMCSA that the Amendment agreement #FM-CVN-0018-11-01-01

amendment #1 had been approved. On May 9, 2013, the Transportation project received approval from the Commission's Executive Director. On May 29, 2013, our contractor Iteris was on-site to meet with the Kansas Trucking Regulatory Assistance Network (KTRAN) Grant "Core Team." The Core Team consisted of staff from Transportation, IT, Accounting, and Legal and are the subject matter experts designated to be involved with the project from establishing requirements through procure-

ment and into testing and deployment. Additionally, the Core Team will ensure project continuity.

The Commissions IT CIO was designated as the primary contact point for all KITO related activity. The team will work with this person to develop and complete the High-Level Project Plan and get this approved by KITO. A series of three on-site meetings are scheduled to develop the requirements for the new KTRAN system. Our tenta-

tive dates for these visits are as follows:

- May 29 & 30, 2013, initial meeting with Core Team and on-site requirements gathering;
- July 17 & 18, 2013, Review of Requirements Round #1; and
- August 20 & 21, 2013, Review of Requirements Round #2

In addition to on-site meetings, bi-weekly conference calls were scheduled to expedite the process.

KTRAN UPDATED SCHEDULE OF MILESTONES AND BUDGET ESTIMATE		
Milestone	Expected Completion Date	Budget
Project Start	05/27/2013	-
Complete Project Management Plan	09/30/2013	-
System Requirements Complete	09/30/2013	\$55,262
CITO Approval	10/25/2013	\$27,630
Developer Notice to Proceed	12/02/2013	-
Hardware Procurement	01/21/2014	-
KCC Database	04/30/2014	\$269,000
Interactive Site Complete	05/13/2014	-
KDOR Interfaces Complete	07/08/2014	\$108,000
KHP (KSCVIEW) Interface Complete	09/01/2014	\$108,000
Secretary of State Interface Complete	01/28/2015	\$269,000
System Acceptance Testing Complete	02/19/2015	-
Go-Live	04/21/2015	\$163,108
Project Close-Out Reporting Complete	05/06/2015	-
Project End	05/06/2015	\$1,000,000

KANSAS TRUCKING REGULATORY ASSISTANCE NETWORK (KTRAN):

The KTRAN Project will enhance KCC Motor Carrier functions. Phases of this project include:

- Porting system into a modern database environment with Internet-based functionality (allowing for electronic submission of information).

- Development of a "wizard" based portal to provide carriers with a question and answer process to obtain information needed to conduct motor carrier business in Kansas. Interview would determine which credentials and authorities are needed.

- Establishing key system interfaces with other agencies to share informa-

tion. This activity includes developing PRISM functionality for testing intrastate carriers prior to issuing KCC authorities and tying civil assessments to renewals and roadside enforcement activities.

- Development of a real-time link to KSCVIEW to provide roadside enforcement with access to permit data.

Conclusion

The Transportation Division has undertaken significant efforts to enhance enforcement responsibilities within its purview and has made significant improvements in motor carrier safety and economic regulation. While Transportation staff has worked diligently to carry out its goals, additional staff and resources are necessary in order to better serve the public interest in Kansas. The Transportation Division has worked to obtain, and will continue to seek, additional resources to aid in the fulfillment of its duties and objectives.

The Commission acted upon the following Transportation filings from July 1, 2012, to June 30, 2013. These filings pertained to rates, operating authority, and safety-related matters for motor carriers and railroads.

BARTLETT GRAIN COMPANY, LP

Docket number 08-BGCM-682-SHO
Docket type Transportation
Date filed 16 Jan 2008
Action date 30 Aug 2012
Commission action Dismissed

In the Matter of the Investigation of Bartlett Grain Company, L.P., of Scott City, Kansas, to Show Cause Why the Commission Should Not Impose Penalties, Sanctions and/or the Revocation of Motor Carrier Authority for Violations of the Motor Carrier Safety Statutes, Rules and Regulations.

KHP MOTOR CARRIER VIOLATIONS

Docket number 12-GIMM-423-KHP
Docket type Transportation
Date filed 09 Dec 2011
Action date 20 Jul 2012
Commission action Final Order

In the Matter of the Investigation of Carry Yours A Division of CFSI, Inc., of Marietta, Georgia, Pursuant to the Kansas Highway Patrol Issuance of a Notice of Violation for Violation(s) of the Kansas Motor Carrier Safety Statutes, Rules and Regulations and the Commission's Authority to Impose Penalties, Sanctions and/or the Revocation of Motor Carrier Authority.

KHP MOTOR CARRIER VIOLATIONS

Docket number 12-GIMM-596-KHP
Docket type Transportation
Date filed 01 Feb 2012
Action date 19 Sep 2012
Commission action Fined

In the Matter of the Investigation of Chris Graham, d/b/a Affordable Home Service of Hutchinson, Kansas, Pursuant to the Kansas Highway Patrol Issuance of a Notice of Violation for Violation(s) of the Kansas Motor Carrier Safety Statutes, Rules and Regulations and the Commission's Authority to Impose Penalties, Sanctions and/or the Revocation of Motor Carrier Authority.

KHP MOTOR CARRIER VIOLATIONS

Docket number 12-GIMM-891-KHP
Docket type Transportation
Date filed 19 Jun 2012
Action date 16 Aug 2012
Commission action Stipulation

In the Matter of the Investigation of Wilbert Elphic of Hasty, Colorado, Pursuant to the Kansas Highway Patrol Issuance of a Notice of Violation for Violation(s) of the Kansas Motor Carrier Safety Statutes, Rules and Regulations and the Commission's Authority to Impose Penalties, Sanctions and/or the Revocation of Motor Carrier Authority.

KHP MOTOR CARRIER VIOLATIONS

Docket number 13-GIMM-017-KHP
Docket type Transportation
Date filed 11 Jul 2012
Action date 03 Oct 2012
Commission action Dismissed

In the Matter of the Investigation of R&S Lawn Service, Inc. of Smithville, Missouri, Pursuant to the Kansas Highway Patrol Issuance of a Notice of Violation for Violation(s) of the Kansas Motor Carrier Safety Statutes, Rules and Regulations and the Commission's Authority to Impose Penalties, Sanctions and/or the Revocation of Motor Carrier Authority.

KHP MOTOR CARRIER VIOLATIONS

Docket number 13-GIMM-042-KHP
Docket type Transportation
Date filed 19 Jul 2012
Action date 23 Jan 2013
Commission action Final Order

In the Matter of the Investigation of J&J Trucking Enterprises, Inc. of Pittsburg, Kansas, Pursuant to the Kansas Highway Patrol Issuance of a Notice of Violation for Violation(s) of the Kansas Motor Carrier Safety Statutes, Rules and Regulations and the Commission's Authority to Impose Penalties, Sanctions and/or the Revocation of Motor Carrier Authority.

KHP MOTOR CARRIER VIOLATIONS

Docket number 13-GIMM-230-KHP
Docket type Transportation
Date filed 02 Oct 2012
Action date 09 Jan 2013
Commission action n/a

Stipulation In the Matter of the Investigation of Mid America Road Builders, Inc., of Platte City, Missouri, Pursuant to the Kansas Highway Patrol Issuance of a Notice of Violation for Violation(s) of the Kansas Motor Carrier Safety Statutes, Rules and Regulations and the Commission's Authority to Impose Penalties, Sanctions and/or the Revocation of Motor Carrier Authority.

KHP MOTOR CARRIER VIOLATIONS

Docket number 13-GIMM-419-KHP
Docket type Transportation
Date filed 27 Dec 2012
Action date 20 Feb 2013
Commission action Final Order

In the Matter of the Investigation of Richard Reed, d/b/a R & K Cattle Equipment Co of Garnett, Kansas, Pursuant to the Kansas Highway Patrol Issuance of a Notice of Violation for Violation(s) of the Kansas Motor Carrier Safety Statutes, Rules and Regulations and the Commission's Authority to Impose Penalties, Sanctions and/or the Revocation of Motor Carrier Authority.

MOTOR CARRIERS

Docket number 13-TRAM-001-PEN
Docket type Transportation
Date filed 16 Aug 2012
Action date 16 Aug 2012
Commission action Stipulation

In the Matter of the Investigation of Mark Soccar, d/b/a All American Towing & Recovery of Wichita, Kansas, Regarding the Violation(s) of the Motor Carrier Safety Statutes, Rules and Regulations and the Commission's Authority to Impose Penalties, Sanctions and/or the Revocation of Motor Carrier Authority.

MOTOR CARRIERS

Docket number 13-TRAM-002-OOS
 Docket type Transportation
 Date filed 05 Jul 2012
 Action date 18 Jul 2012
 Commission action Reinstated

In the Matter of the Emergency Suspension of Operating Authority of Northern Van Lines, Inc. of Apison, Tennessee, for Failure to Comply With New Entrant Safety Requirements as Required by Motor Carrier Safety Statutes, Rules and Regulations.

MOTOR CARRIERS

Docket number 13-TRAM-003-PEN
 Docket type Transportation
 Date filed 16 Jul 2012
 Action date 16 Jul 2012
 Commission action Fined

In the Matter of the Investigation of AG Power Equipment Co. of Sharon Springs, Kansas, Regarding the Violation(s) of the Motor Carrier Safety Statutes, Rules and Regulations and the Commission's Authority to Impose Penalties, Sanctions and/or the Revocation of Motor Carrier Authority.

Dockets | MULTI INDUSTRY

The Commission acted upon the following Multi Industry filings from July 1, 2012, to June 30, 2013. These filings involved issues generic to a particular industry segment.

KANSAS CORPORATION COMMISSION

Docket number 13-GIMX-606-GIV
Docket type Investigation
Date filed 04 Apr 2013
Action date n/a
Commission action Not Final

In the Matter of the General Investigation into the Class Cost of Service and Rate Design Methods Used to Establish Gas and Electric Utility Rates.

On April 10, 2013, the Commission opened a general investigative docket to broadly review rate design and Class Cost of Service (CCOS) methodologies. Upon opening the investigative docket, the Commission solicited input regarding two questions: (1) Whether a Commission inquiry into cost allocation and rate design methodologies is appropriate or necessary, and (2) Submit alternate methodologies for review. Since the docket is investigative, there is no set procedural schedule.
